Simplicity key to a happy New Year

Tis the season for making reasons. There is a reason for not putting dry gas in the car, there is a reason for having a cigarette. But this year, there is NO reason for not being able to keep these simple New Year's resolutions.

I think I have learned enough in past years not to make resolu-tions that I know I won't be able to keep, ro instead, here is my list of New Year's resolutions I know I'll be able to follow through with:

First off, I am gonna resolve to First off, I am gonna resolve to lose weight. Last year, I said I would lose 25 pounds, but thing year, I'm setting a more realistic goal — I'm gonna lose 5 pounds before Valentines Day. The way I figure. Til gain it back making candy anyway so things should even out in the long run.

Secondly, I resolve to purchase at least three hundry baskets and keep them under the basement steps so that I can be a little more organized while recycling. Glass in one, cans in another and plastle in the third. No more spending an hour sorting through a multi-purpose basket on Saturday mornings before seeing my friends at the recycling center.

Next in line, is a resolution that Next in line, is a resolution that I made before my holiday shopping. I resolve to continue not buying battery-operated toys and suff and instead, I bought myself a battery recharger and a siew of rechargeable batteries. All the old batteries are going to the recycling center for safe disposal and will not go into the trash.

I also am resolving to expand my cookbook library not just by purchasing what is on the New York Times Best Seller list, but to York Times Best Seller list, but to include some great selections put out by local charlities, organizations and churches. These books are filled with family tried-and-true recipes that are sheer joy to prepare and eat.

The year's winners include the "Good Enough Cookbook" from the Cookbook from the Coo

Cookbook fanatics will also enjoy MFK Fishers' re-release of her five book anthology. This five-book collection from a master writer and cooking authority will offer not just great recipes but also great rending enjoyment. Fisher, now in her golden years, has a way with words and her recipes and culturary style will live long after you and I have taken the big path to that 4-star restaurant in the sky. the big path to rant in the sky.

This next one is a toughle. I resolve to try harder to clean up after myself in the kitchen. Last month when the O&E ran my feature article on holiday cookies, the kitchen was a disaster and it stayed that way till I paid to have it cleaned up. From now on, it will at least and its cleaned will at least and its the will at least and into the will at least and the will at least stayed that why that plant on have it cleaned up. From now on, it will at least go into the dishwasher so I won't have to look at it. No more Petite dish creations from letting something sit in the sink too long.

Lastly, I resolve to not accept mediocre food when paying top-dollar prices in area restaurants. I'm not going to be beliligerent about it, just take it away and bring me something better.

I truly hope 1990 heralds in a prosperous year for you and yours. If you too, are making a list of New Year's resolutions, I hope you keep them simple and attainable. Bon Appetiti

Shop supplies sushi for at home

"WE GET A lot of people who want to make sushi at home." President of Noble Fish Jim Hewes said. "It's cheaper, and they like to dit." Hewes is quick to educate first-time sushi consumers.

"Not all sushi is made with raw fish, which surprises people," he said. "When someone is trying sushi for the first time, we generally start them with our California roll, which has avocado, cooked imitation crat and eucumber, or a cooked erab or string night." Night is a form of sushi that uses vinegared rice as a base, with a piece of a Japanese-style condeits. Cooked seafood or sashimi (raw fish or ror than 500 years." Hewes said. Sashimi, caviar and cooked scafood for sushi fill one side of a refrigerated case. The other side displays such standards as salmon steaks, orange roughy, fillet of sole and bluefish.

"If a fish gets two to three days old, we'll sell it in steaks to be cooked," flewes said, warning people to to buy raw fish for sushi in traditional grocery stores. Because consumers rarely know the day a fish was caught, supermarket purchases should be cooked to eliminate possible bacteria.

In addition to sashimi fish, and

ble bacteria. In addition to sashimi, fish, and seafood, Nobie Fish offers the other key lagredients for sushi: rice, seawed and special seasonings. Japanese rice has a very short grain and a chewy, slightly sticky texture which allows it to be formed into numerous sushi shapes.

ALSO, NOBLE FISH customers can buy cooked sushi rice to make "instant" sushi. Rolled sushi requires nori, the Japanese term for seaweed, to create its wrapper, one form calls for a sheet of toasted scaweed, covered with a layer of sushi rice and an assortment of vegetables or seafood. Using a bamboo rolling mat (sudare), the nori is rolled around the fulling to form a cylinder, then sliced into bite-size pieces.

Both the sudare and nori can be purchased at Noble Fish. Special

just the thing Americans are looking for."

At the same time, he said people love the taste of sushi — with or without raw fish.

"There is such a variety in the flavors, textures and the way the Japanese prepare sushi." Hewes said. "It's just like an apple or pear — If it's fresh and good, you don't want to cook It. The same is true with fish."

The majority of Noble Fish customers share Hewes' opinion. About 55 percent are Japanese, traveling from as far as Toledo and Midland to buy sashimi, rice and imported produce and products. To support the growing Japanese elicitede in outlying areas, the store now offers a grocery delivery service.

DESPITE THE STRONG Japanese customer base, Hewes said the number of U.S. customers has increased tremendously since his wife and a friend came from Japan to open Noble Fish in 1984.

Much of the sashimi is wholesaled Much of the sashimi is wholesaled to Japanese restaurants in the area, where sushi bars have grown to meet Michiganians' adventurous tatebuds. "Busy familles, new mothers, ail-

ing patients really need help in put-ting together meals," Schneyer said. She also said that although she some-times accepts catering jobs, her pri-mary goal in getting into the food preparation business was to get the family back to the dining room table.

"I'LL NEVER FORGET my son telling me that his favorite part of each meal was the warmth and contersation. If the cooking jis done, there's more time for that," Schneyer said.

This 54-year-old mother of four is married to a phystician who appreciates a good meal, and consequently, Schneyer spent a lot of time in the kitchen experimenting.

When her kids were young she would get together with a friend each week to develop recipes with the intention of publishing a cook-book. Although the book never materialized, her growing interest in cooking prompted her to take classes with professional chefs.

She recalls the time she spent with James Beard in New York. "It was a week of learning to cook whatever I
