

Public access turns camera on community

Those of us in community access television may be seen day and night covering events and creating programs. The programs are then scheduled on Channel 12. The Observer kindly prints each week's schedule.

Every day 14 to 20 shows may be seen. What we take for granted is that those who are involved know that even when titles are the same each week, the content is usually different.

A community television channel does have the privilege to repeat programming for the convenience of our busy audience. However, repeated programming is also for the benefit of each person who volunteered their time to create the show.

Please know to tune in to the program of your choice to explore the new topic and many interesting people sharing information and fun with you.

Monthly Allergy Tip
If you never stop fighting the cold war, it's time to question if it's really a cold you are fighting!
Coughs and chest congestion are usually caused by respiratory infections. But if symptoms appear too frequently or are difficult to control, they may not be caused by a cold or bronchitis. It may be that allergies or asthma are involved.
Why suffer time after time? Find out if indeed it is an allergy or asthma that causes you so much discomfort so often. See us. We may be able to help!
