dual meets and the Hornets second at 5-1. In the league meet, Kalamazoo was first with 603 points and Hope second with 576.

Grush is a graduate of Farmington Hills Mercy High School and the daughter of Mr. and Mrs. Ernest Grush of Farmington Hills.

Yvette Maison
former *Mercy* star

Molson, a 5-foot-9 guard, started the Lady Bulldogs' first 18 games before missing the rest of the season with a sprained knee. She averaged 10 points and 3.88 rebounds, and she was leading the team in minutes played (38.3) and assists (95) prior to her injury.

Malson had career highs in four categories this year: points, 18 versus Southern Illinois; rebounds, 10 versus Wichita State; assists, nine versus Northwestern (La.) State; and steals, four versus Northwestern State, Illinois State and Brigham Young.

The Lady Bulldogs finished the season with a 10-16 record, including an 8-10, sixth-place standing in the Gateway Conference.

Marshall, who was overlooked by college scouts, walked on at Eastern Michigan in the fall of 1987. He made the team and witnessed the Hurons' Mid-American Conference title and victory in the California Bowl.

"That was a neat season," Marshall said. "Everyone got to go out to California for the bowl game. It was a lot of fun."

In the 1988 season, Marshall made appearances in two games as a back-

"I got to play about 10 or 12 plays that season," Marshall said. "It was just enough to get a taste of the action."

Despite his progress, Marshall had not yet received a scholarship and was beginning to get frustrated.

LAST SEASON. Marshall played

last season, Marshall played on special teams and the entire second half of the game against Liberty University. By the end of the season, Eastern Michigan coach Jim Harke-
na gave Marshall a scholarship.

"If I didn't get a scholarship, I wasn't going to come back," he said. "I wanted to be compensated for my time. Guys on the team would be asking me if I was on scholarship yet. It got to be degrading."

baseball

as Miller did — would have to be considered doubtful.

"Pat Miller's just pitching great," said the Titan coach. "He's been our best pitcher so far."

The pros are interested, too, according to coach Pat Miller, who counted seven scouts with radar guns clocking Pat Miller at one recent game (for the record, he throws in the 88-89 mph range).

So far, the arm's held up quite well. Miller (the coach) is hoping the same will be true for senior second baseman Dennis Bushart, another RU product.

Bushart hit .287 in '89, with six doubles, a triple, a homer and 25 runs batted in. He made 12 errors in 41 games at shortstop and second, and was named first-team All-MCC.

THOSE WERE the highlights. On May 7, Bushart injured his knee against Notre Dame and was lost for the final 16 games. He's back, and so

ar he's been better than ever. He's hitting .283 and has just two errors in 15 games, and last weekend he put on a rare display of power, clubbing three homers in as many at-bats against Xa-

"He just had the stroke," said Miller of Bushart's homer outburst. The Redford native had just six in his three previous seasons at U.D.

There wasn't a fluke in the bunch. He was our whole offense on Saturday."

As far as his knee is concerned, Miller said, He's wearing a big brace on it, but he's worked

The Best Tires In The World Have Goodyear Written All Over Them

KRON, Ohio - Quality is a word that is too often overused. Quality, at The Goodyear Tire & Rubber Company however, means more than a word; quality is a rallying cry, a necessity, a requirement that every tire produced by this world giant is to meet.

Quality is the cornerstone of Goodyear - the largest tire company that is American-owned. Quality at Goodyear begins at our Technical Center in Akron, Ohio, home of Goodyear's massive World Headquarters. The "Tech" Center is the tire industry's largest research & development operation in the world. It is also where the person tire was introduced to the world, and where the first radial was developed for America.

Goodyear Technical Center engineers are proud of their development of the Goodyear line of high performance tires. These tires have created a string of victories in national and international racing, untouched in recent years by any other competitor in the world. The knowledge earned from these wins has been translated into the development of a complete family of Goodyear Eagle passenger tires, the full line of Goodyear passenger and light truck tires, the largest in the world.

Goodyear Quality. You'll find it in the tires produced by Goodyear, and in everything that works for Goodyear, including your neighbors at our nearby Goodyear Auto Service Center or independent Goodyear dealer.
