RECOVERY
NETWORK

Why You Should Protect Your Vehicle With Lo-Jack

HOW IT WORKS:

1. Once your car is reported stolen, a statewide signal sent by police automatically activates your stolen car's LoJack unit.
2. Your LoJack unit then sends out a silent, coded homing signal to state and local police cars near the stolen vehicle.
3. The LoJack Signal leads police directly to your car so they can recover it fast, before thieves can rip it apart.

The complete LoJack system beats both "joyrider" and professional thieves. LoJack Prevent beats the "joyrider" with passive starter disabling electronics if someone unknown to you tries to start your car. LoJack Retrieve beats the professional thief by enabling police to track your car if it is stolen.

We guarantee recovery of your vehicle or you get your money back. If we do not recover your vehicle within 24 hours from the time it is reported stolen to the police, we will refund the full LoJack Retrieve purchase price.

LoJack's success can save you money on your vehicle insurance. For example, in Massachusetts, owners of the Complete LoJack System can save up to 35% on their comprehensive insurance. Call your insurance agent for information about insurance.

LoJack Statistics:

- With LoJack, stolen car recovery rate is 96%.
- With LoJack, average stolen car recovery time is 90 minutes. Record recovery time is 1 1/2 minutes.
- With LoJack, average stolen vehicle damage is under \$300. Without LoJack, average damage is \$5,800.

THE FASTER YOUR CAR IS FOUND THE LESS YOU STAND TO LOSE.
