

RECYCLING IS GOOD NEWS:

Overcrowded landfills. Garbage barges no one wants to deal with. Terminal trash.

News.

Bad news.

The good news? More and more people, businesses and industries are finding ways to recycle.

It takes more than 6,000 tons of newsprint each year to print The Observer & Eccentric Newspapers plus a number of other publications, so we're doing a number of things to help the solid waste situation:

1. For years we've sold our waste newsprint to a recycling firm.

2. 25% of the newsprint we print on is recycled and we're increasing this amount by another 25% this year.

3. Our employees have begun to routinely put office paper (memos, computer paper, waste copy paper) in recycle bins instead of waste baskets.

Of course, we still deliver thousands of newspapers twice each week. It's our business to bring you news of your local government, schools, sports scene and community events; the news you need to know.

And when you're finished reading your hometown newspaper there are places that will recycle them.

We've listed a few for you on this page because we think recycling is Good News.

What do an apple, a cow, and a car door have in common?

Recycled newspapers play a role in all three. Apple growers in the northwest use recycled newsprint for packing, farmers use it for bedding instead of straw and auto manufacturers use it in car doors.

There are many uses for your used newspapers, why not start saving them today?
