- More college programs in, and local use of, traffic engineers.

- More truck inspections. Michigan's limit of 1,674,000 pounds is

- Better screening of drivers over age 55. They are twice as likely to be involved in fatal accidents as the 25-54 age group. More roadway design research is needed to understand elderly drivers' reaction times and vision.

- A tighter definition of drunk driving through lowering the allowable blood alcohol content, currently 0.10 percent.

• Greater consistency in court sentencing of drunk drivers District judges were praised for their pro-

- More use of seatbelts, including making failure to wear a belt a "primary" offense for which police may stop a driver.

SEMOG's report noted the federal government spends \$1 billion a year on AIDS research for 27,000 patients, but traffic research gets only 12 percent as much to address 160,000 traffic deaths and injuries.
