In the past year, other organizations, in conjunction with the NAEVC, have also set up accreditation programs.

A branch of the National Council of Churches, the Ecumenical Child Care Network, has recently set up its own accreditation process to complement that of the NAEVC.

THIS PROGRAM program is intended for use by churches or synagogues with a weekly early childhood program.

According to EECN director Margery Freeman, the purpose is to help establish a good relationship between the early childhood program and the host church or synagogue.

Additional issues include the differences in salaries and benefits between other congregational employees and those in the early childhood program.
Also, according to Freeman, these programs are often loosely sponsored by the church or synagogue, and congregation members might assume that certain religious teaching was part of the program when, in fact, it was not.
The ECCN accreditation process involves a self-study in areas as finance, program structure, communication and administration. A norminal fee is charged.
A validation visit is not part of the process, since most goals are accomplished on paper.
