Ex-teammates now foes

Under normal circumstances, running into an old friend in a faraway place is a time for rejoicing. But for Jennifer Shaky, such an occurence was — well, a moment of mixed rimutions.

Sure, she was happy to see her old frammate from Birmingham Mayian, Kathy Phillips, It's just that she wasn't particularly pleased to see Phillips playing for her team's toughest league foe.

"She's one of my very good it was nice to see her, first of all. But the was different playing against her.
"I think I'd rather have her on my icide. She's a great player."

Phillips' Penn State squad is

Phillips Penn State squad is ranked second in the NCAA, which makes the Lady Llons a formidable for. But Shasky has been instrumental in making her own team—Groupe Washington University—equally tough.

INDEED, WHEN the two squads sangle, the No. 1 spot in the Atlantic 10 Conference will no doubt be at stake. GWU is currently in first place, with a 7-0 league mark and a 13-2 overall record. It's the team's best start in school history.

And It's Shasky who has been the
difference. She leads the team in
scoring, averaging 17.6 points per
game. She is also tops on the team in
juniates played, getting in 36.5 per
game. And she averages 5.8 rebounds and 2.3 teals, as well.

Shasky is only a sophomore. Considering how easily she has seemingly adapted to playing basketball at the college level, it's almost surprising to hear her say "I didn't know what to expect in college, I didn't know how much I could slep up my game."

step up my game."

CERTAINLY, SHASKY is a fast study. She was voted the conference's rookle of the year last season, when she averaged 11.8 points and 4.5 rebounds. When leading scorer Karen Vadelund graduated, a hole was left in the GWU lineup. The team's next highest scorer would have to step in and fill that hole. That was Shasky.

It wasn't going to be easy, Aircady, opposing players knew Shasky was a scorer, defenses were aircady gearing for her. To put more of a scoring load on Shasky, in her sophomore season, seemed unlair.

But she's adapted. "We did lose a significant part of our scoring, but everyone was going to have to step it may be a step in the state of the state of the step in the state of the step in the state of the state of the step in the state of the state of

IT HASN'T been easy for her, however. Michigan's former Miss Basketball has had to get used to getting knocked around a bit while running off screens. And she's had to make constant adjustments in her game.

Estey, Illini making improvement

"It's harder, because I always feel they're pushing me and hitting me, and the refs aren't going to call it," she said. "You've just got to control your temper and keep moving. "This year, I've had to get used to moving without the ball. (Opponents) have learned I can shoot it, so I've had to learn to come off screens. If they've gotten used to one of my moves, I've got to come up with a counternove. It's always changing."

Those are goals Shasky is taking dead aim at.

"We play a lot more together this year than last year," said Estey. "It's so much better than it was. There's no such thing as an easy practice. It's the way it should be."

Second, check some of Estey's other statistics. Like assists — she led Illinois last year with 97, an average of 3.4 a game. She's dishing out 5.9 a game this season, which is near the pace to set a new Illinois single-season

Then there's defense. "I think my defense has (improved most)," she said. "I'm really happy with my defense. Last year, I never even thought about blocking out and getting rebounds."

AT 5-FOOT-4, Estey isn't going to get a lot of re-bounds. But her defense has improved to the point where she leads the team in steals, averaging 2.5 a game.

And finally, check Estey's goal sheet. She admits "I never really considered myself a pure scorer, not even at Salem. I'd really rather pass the ball."

NHL trade is liberating experience for lafrate

If was a bitter cold night Tuesday outside Joe Louis Arena, but inside the Caps' dressing room, following their come-from-behind 2-1 overtime win over the Red Wings, Idrate projected a warm glow. He had a right to feel euphoric. After 6th painful years with the Toronto Maple Leafs where he was dogged by immendo and whispers of off-ice personal problems, Idrate was set free last week, traded to the Caps for a guy named Zerel and another called Rouse.

If was only the second game with his new teammates, but the Infrate deal appears to be already paying dividends. Displaying the moves that made him an All-Star In 1996, Infrate was selected as the game's No. 3 star.

THE NEW, more physical-minded No. 34 also delivered a strong message in the third period, swatising Detroit star Steve Yzerman against the boards like a mosquito. There was no mistaking that the new Infrate is going to throw his 6-tool-3, 215-pound frame around NHL rinks with more authority this season.

Estey has been working on her game. It shows, too, although statistic minded followers may not think so. After all, the former Pymouth Salem standout is av-craging just 4.1 points a game. And even though she's just a sophomore, Estey did start 19 games at point guard last season — and she averaged 4.1 points a game then.
