But Rochester has its own math and science programs, he said. "I think we're a big enough district we're a magnet in and of ourselves. We have some good programs already."

If state funding continued to define, Telford predicts more districts will look to magnet schools as a coperative approach to providing advanced programs.

HOUSEL SAID reaction to the proposed magnet school from districts in the northern part of the county — including Avondale with students in Auburn Hills and part of Rochester — has been strongly affirmative from officials as well as narents. discussions might be less stimularing.
