

Enjoy historical look into gas technology

ROBOTS, MANNETRONS (electronic mannequins) and futuristic displays will entertain and educate you at Consumers Powers' "Yesterday, Today and Tomorrow" exhibit at the builders show.

The exhibit features the progress of natural gas from 1859, when only 100 American families were using gas stoves, to today, when some 50 million homes nationwide use natural gas.

YESTERDAY

See how early natural gas appliances heated homes, cooked food and provided hot water and comforts considered revolutionary for this day and age.

The display features a mannequin from the turn of the century, talking to his wife who is at the gas stove heating water for his bath. Mittens hang drying over the fireplace and an authentic "ice box" adorn the rustic room.

TODAY

On display for outdoor use are the latest in gas grills, infrared heaters, and pool and spa heaters.

Moving indoors, the versatility of natural gas is featured in water heaters that vent directly outside, eliminating the need for a chimney; high efficiency furnaces; natural-gas air conditioners;

and a combination water heater and furnace that has proven attractive to apartment and condominium dwellers.

Natural gas technology also has combined efficiency and contemporary looks in producing the glass-top gas range.

Other modern products on display include a small wall hanging water heater, a fireplace with cozy, clean and economical gas logs and a modern Windpood stove.

TOMORROW

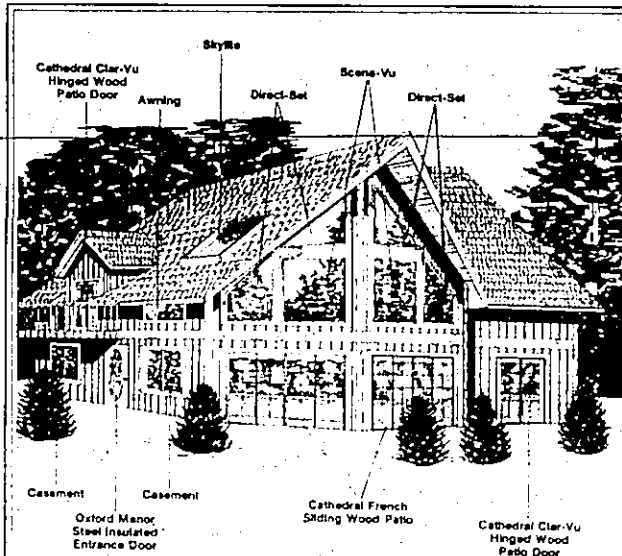

Behind the friendly robot who greets you are five displays of tomorrow's natural gas applications:

- **Natural Gas Heat Pumps** - in Japan, 60,000 of these efficient and practical heat pumps are currently in operation.

- **Outdoor Gas Grills** - through remote control, a central computer tells you when the food is ready.

- **Natural Gas Generators** - during a power outage, this gas generator produces the necessary power to keep your home up and running.

- **Advanced Gas Water Heaters** - automatically and remotely controlled using built-in sensors, the heaters are made of non-metallic material that has no leakage and guaranteed for the life of a home.

Come To Our House . . . For Wood Windows and Doors That Will Fit Your House

Why waste you time running all over town trying to get windows here and your doors someplace else. Why not just visit your local authorized Weather Shield dealer for all your wood windows and door needs.

No matter if you need double hungs, tilts, casements, slide-bys, direct-sets or skylites, you can rest assured that you will be getting the best quality wood windows money can buy if you choose Weather Shield. But we make doors, too. Weather Shield's complete door line includes sliding and hinged patio doors, steel insulated entry systems and storm doors.

For over a quarter of a century Weather Shield has been recognized as a leader in the wood window and door industry. So put our experience to work for you. Visit the dealer listed below for all your door and window needs.

You'll be surprised at how simple and inexpensive choosing the right wood window and door can be for your next building project.
