Hours are 10 a.m. to 5 p.m. Monday-Saturday, until 7 p.m. Thursday, 113 N. Center, Northville.

How to protect shoulder pads

Q: I'm having more and more problems with shoulder pads. They are close at first but repeated washing or cleaning causes them to lose their shape. Then I had a really bad experience: At a hotel convention, I spent lots of time getting ready to look perfect and at the last minute threw on my suit coat (fresh from the cleaners), only to find one of the shoulder pads dangling down inside the lining of the sleeve! Can you help me "organize" my shoulder pads?

Dorothy Lehmkuhl

A: As if we don't have enough to do, attention to shoulder pads has become an added necessity. I did a little research and here are some thoughts:

Suit coat pads are sometimes glued in and repeated cleaning can melt the glue. Monitor them closely and repair them when necessary. That shouldn't happen on good brands.

You can cut out and re-use loose pads back in for each cleaning, but frankly, that's a pain. Some women remove pads permanently and just wear the same pair that Velcro to their bra straps with everything.

Detachable pads that are attached by Velcro to the garment are ideal, but they're only sewn into some clothing. You can make most of them detachable by sewing in Velcro yourself, and you can try to buy only clothes with Velcro pads in the future.

Lillian Agostinelli, alterations supervisor at Hudson's Northland store, was particularly knowledgeable on this subject and emphasized that prevention is your best bet.

She underscores discussing concerns with your cleaners, pointing out pads that need particular attention. If they can't assure your gar-

ment will turn out as you want, look for someone who will give you that promise.

Lillian warns that both cleaners and individuals sometimes press pads out flat. This causes them to lose both their thickness and their curve and can result in unsightly lines showing through clothing.

She said they alter pads underneath by using small gathers to bring the pad into more of a curve, or by loosening material to straighten them out when needed. Rather than putting them in the dryer, she suggests dry-cleaning your tops so the pads dry in a natural curve.

Shanta Singh of Chase Cleaners at Bloomfield Plaza says they watch pads carefully. On clothes with loose pads, they pin two safety pins along the shoulder seam line from underneath. This helps retain their shape and prevents wadding up. She encourages customers to return garments for correction if they're unhappy with any aspect of their service.

If you're handy with a needle and thread and have the time, I like to loosely catch various points across your pads with matching thread to ensure the inside padding can't shift around during washing or cleaning.

Dorothy Lehmkuhl is a time management consultant based in Birmingham.

Duo performing in concert

Duo Sequenza - flutist Debra Silver and pianist Patricia Pineda Bowman - will perform in concert at 8 p.m. Friday, April 19, in Smith Theatre on the Orchard Ridge Campus of Oakland Community College, 1696 and Orchard Lake Road, Farmington Hills. Cost is \$5. For reservations, call 471-7700. They will perform renaissance, baroque and contemporary works.
