## Hospitals Care About Your Vital Signs.

### Shouldn't You Care About Theirs?

Nobody likes to ask for money. But the fact is, without your support, it's becoming increasingly difficult for hospitals to upgrade their equipment, services and innovative programs. And, sadly, that means that some much-needed medical care may never reach the people who need it most. So do your part, and take care of your hospital. After all, they do the same for you.

Give To Your Local Hospital. Give To Life.
