EDUCATION ABOUT LIFE CAN BEGIN AF-TER OUR GRADUATION

Education is a wonder-

Education is a wonderful thing which we all get by going at least through high school, and then on to college if we have the opportunity and the motivation for it.—However, graduation can be just the beginning of a time to learn about the world we live in, because there is more to education than just preparing for our life's work. It's learning about life itself, We cannot walk down a city street, or out in the

life's work. It's learning about life itself. We cannot walk down a city street, or out in the country, without learning something about inture; as well as the good and bad habits of human nature. The best place to enroll in any course about life is your House of Worship, where its lessons teach you all about the world that God made, in which he saw fit to include you in Hisplans to make it a better place to live for all concerned.

The best educated human being...understands most about the life in which he is placed. -Helen Keller

"Continue now in the things which thou hast learned." -II Timothy 3:14
