

AREA RECYCLE CENTERS

WE'RE ON A
BIG
ROLL

To be part of the solution, not part of the problem.

Times change. There was once a time when we thought that providing the very best community news coverage was enough.

Today it's not. Today we have a responsibility not only to our readers and advertisers, but also to our environment.

That's why 30% of the newsprint we put on our press has been recycled. This will increase when our other suppliers bring recycled newsprint on line later this year.

Our communities and the entire State of Michigan face a solid waste crisis.

There used to be 624 Type II landfills in Michigan*. The trash from your home, your neighbor's homes and the businesses in your town goes into a Type II landfill. As you read this, there are only 71 of them still open and licensed to do business. That's 71 in all of Michigan's 83 counties. Estimates say one-third of these will be out of business in less than five years.

So what can a business like ours do to be part of the solution and not part of the problem?

We're buying and printing your newspaper on recycled newsprint. We're looking for other recycled products to use in our business. We're recycling all of our newsprint and office paper. We're working to increase public awareness and participation. We're encouraging our readers to recycle.

How can you help? Why not begin with this newspaper; recycle it along with others you may have collected. Then start buying recycled products. Spread the word about those landfills and recycle this page by sharing it with a friend.

And if you are already recycling—thank you.
