A praised value.

The Saturn SL2 \$10,295*

As a matter of fact, you don't even have to have a blue book to value a Saturn SL2. Just slip behind the wheel and you're bound to notice the difference in off-the-line pickup and ride between an SL2 and other cars in its class. A direct result of things like a powerful dual carburetor engine, a long 102-inch wheelbase and large 15-inch wheels. And a blue book could go on, perhaps the best idea is to stop by for a test drive and make your own mind up.
