## More lift needed for 'couch potatoes

Dear Myrna: I read your column on "couch potato children." What about "couch potato adults." Are the statistics getting better?

In my couch potato column, I already mentioned the fact that American adults that work out at least twice a week increased from 30.8 million to 32.2 million. This was based on a survey by the Nation al Sporting Goods Association. However, we know that 80 percent of the adult population still does not participate in exercise at all. women are doing better as less women than men are couch potatoes, the haby boomer géneration is exercising more frequently than ever before, bringing up percentages, and as family income increases, so does participation in exercise as well as health warreness.

Remember, in most cases the more television watching — the more junk eating.

junk eating.
Generally, the prime time diet consists of foods high in sugar, sodium and fat and low in fruit, vegetables and fiber.
If you have noticed television itself has bad eating habits. Generally, we view our stars eating everything but fruits and vegetables. How does television's bad eating habits affect viewers? I'm not sure. But the average household watches television seven hour a day. Are the statistics getting better. I would say not better enough.

# Archers prepare for season

HE COUNTDOWN continues. Only 15 days remain until archery deer season begins.

Avid archers are already in tune with the country of the continue of the country of the coun

DETROIT ARCHERS in West Bloomfield (661-4775), West Bloomfield (661-4775), West Wayne County Conservation Association in Plymouth (453-9843), Oakland County Sportamen in Waterford (623-0444), and Royal Oak Archers in Lake Orion (693-1058) all offers shooting opportunities at various times and days. Archers will find a walk-through course open on the weekends at one or more of the above ranges throughout the month. Walk-through ranges take archers

through a wooded course simulating actual shots through the foliage. Most courses vary the shots at disances from 15-yards to up to 40-yards and many offer shots from elevated platforms for the tree stand hunters. Walk-through ranges are as close as you can get to an actual hunt.

hunt.

IF YOU HAVE the opportunity to shoot on your own it helps to vary your shots from different distances and positions. Shoot from haceling and stiting on the word and dot and the shoot of the shoot with our bow and arrows instead of a basketball. Believe me, the shots get progressively more challenging.

"Archers should be able to find anything they need at the show said show manager Tom Campbell.

"We've also got people coming in that can tune your bow, speed test it and even give it a camo paint job."

Other attractions archers may be interested in include a running dear novelty about, a bucking shoot (from a moving seat), bloot targets for the guty archers and a abouting exhibition by Oneldo staff pro Rick Kiefan.

Although he lost an arm in an industrial secident, Kiefan hass't lost his knack for superb shooting and will entertain the crowds with his one-arm shooting display.

There will also be seminars on

deer grunting and rattling among others.

ED LANGENAU, big game specialist with the Michigan Department of Natural Resources, will conduct a seminar and answer questions surrounding Michigan's deer herd, the projected barvest, the new two buck law and more.

The show includes more than 125 exhibitor booths, 36 continuous seminars, a lumberjack skill show, deer and turkey calling contests and camp chill color-fol with Duane X. Rilley of Channel 4 acting as one of the Judges.
