

Think of the Value

Haven't you securities, or deeds, or mortgages or other papers worth a whole lot to you? What if they should be lost, or stolen?

It doesn't pay to take a chance, particularly when the Farmington State Savings Bank offers you the convenience of a Safe Deposit Box in its great steel and concrete vault, fire-proof and burglar-proof.

Ask us to show you through the vault. Just a part of the complete banking service offered by the

Much has been said regarding the capabilities of the wonderful degree of Pocassetes Tribes No. 45 who have been selected by Great Inchoonee, Charles E. Pass to attend the session of the Great Council of the United States at Detroit in Corn Moon. G. S. D. 435 to confer the Adoption Degree and while their name is famous throughout New England, there is not the shadow of a doubt that they are probably unheard of as far as some of the western reservations are concerned.

Those who are privileged to witness the work of this team at Detroit have a treat in store for them. Nearly the entire team are overseas veterans and they conduct themselves in their floor work with the snappy military swing which is so delightful to witness.

The speaking parts are in capable hands and several added features will go to make up what is thought will prove to be the best Adoption Degree ever presented anywhere.

On January 20th Wahjamega Council Degree, of Pocahontas will offer a public installation of officers to be conducted by Juanita Council of Detroit.

The two Plymouth councils, Degree of Pocahontas with the Red Men in uniform, are expected to attend.

ATTRACTIVE EXHIBIT OF IMPROVED FORD CARS

The showroom of Olin Russell, local Ford dealer is just about the most popular place in the city this week. Ford National Show Week which opened Tuesday and will continue through next Saturday evening, has brought out the greatest exhibit in the history of the Ford Motor Company. Not only is a full line of improved cars being shown, but the trim lines of the various types are enhanced by such new appointments as brightly colored wire wheels, top boot and gypsy curtains, windshield wings and windshield wiper produced by the Ford Motor Company. This special equipment, is being exhibited for the first time in Ford National Show week and should prove mighty interesting even to those who are already driving improved Ford cars.

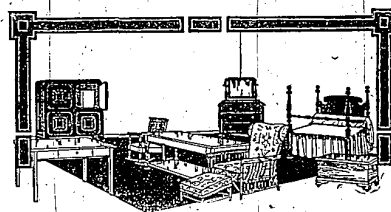

In addition to the cars and specialties, representative types of Ford ton trucks and Fordson tractors with both industrial and agricultural equipment will be displayed.

Arrangements for the week's display here were made by the Ford Motor Company to coincide with exhibits in every dealer's showroom in the United States. The purpose of the display is to give the people of Farmington an opportunity to become better acquainted with the improved Ford cars. Ford service so thoroughly covers the city that there is a showroom convenient to practically every home and the displays will remain open in the evening to accommodate those whose days are occupied.

In Ford cars which will be shown during the National Show week are incorporated improvements in body design and construction and chassis refinements more pronounced than any made in the history of the Model T chassis. Although thousands of these improved cars are in operation all over the country at the present time, there are still many persons who have not had opportunity to view the entire line and inspect in detail the improvements which have so greatly increased the popularity of Ford cars.

The first impression of the Ford cars for 1926 is one of increased beauty and smartness. Bodies are longer and lower, fenders hang low over the wheels and closed cars are finished in rich harmonious color schemes. But beauty is not the only quality to benefit by the redesigning. Riding comfort has been increased by wider, lower seats and greater legroom. New features of convenience have also been incorporated in these new cars. The gasoline tank is now filled from outside the car and in the open types, a door at the driver's left permits entry or exit without disturbing the front seat passenger. Both transmission and rear wheel brakes have been enlarged.

The specialties designed and manufactured by the Ford Motor Company especially for Ford cars are in effect "genuine Ford parts" the Ford trademark in its familiar script insuring that they are produced according to the same standards of quality which govern the manufacture of Ford cars.

Exceptional Bed Room Sets

We especially invite customers who are interested in clever bedroom furnishings, to see our elegant bedroom sets.

We do not believe their EQUAL in charming design is to be found at any price, and we know that the QUALITY and finish are above criticism.
