IN MEMORIAM

In loving remembrance of our dear son and brother, Arthur A. Schroder, who died two years ago January 17, 1924.

We loved ones stood around him To bid a last farewell.

No word of comfort could he leave,

To those he loved so well.

He is gone, but not forgotten Never shall his memory fade; Sweetest thoughts shall ever linger,

Around the grave where he is laid.

NOTICE

Myself and wife having reached a complete understanding, I hereby rescind the order published last week and trust that our friends and enemies will help us by overlooking the same.

W. Headerle.

The Individual

Living movements do not come of committees. No great work was ever done by a system, whereas systems rise out of individual exertions. The very fruits of an individual exertion are: the best, but his cause (if good and pure) gains. This is the way of the world. We promote truth by self-sacrifice. —Fisher Newman

How Long Should
a Wife Live?

There's humor of a grim sort in the query put before an electrical convention awhile ago, "How long should a wife live?"—a lot of seriousness too.

Another way of putting the question: Is the hard and tiring work of the home done by hand or electricity?

Electrical appliances, reasonable in price, easy of payment, and costing little to operate, are taking the toil out of home work and undoubtedly adding years to the life of the housewife.
