THE DETROIT EDISON COMPANY

For Scientific Eating

A course in scientific eating has been established at the Kansas State Teachers' college at Hays, Kan. "A person is not educated unless he knows how to select a properly balanced meal," explains Miss Ethel M. Snodgrass, head of the home economics department, who is teaching the students to eat scientifically. Etiquette is not taught in the class, which meets once a week. Miss Snodgrass believes that students learn at boarding clubs the proper use of the knife and fork.

To every little child who faces the struggle of some day emerging into the full ripe years we bend all of our efforts. It is our personal business to supervise the production of every pint of milk and cream that goes out under our label. Children love our milk.

John Wedow, Auctioneer.
Harry McCracken, Clerk.

Auto Tragedies Increase as Other Travel Is Made Safer

AUTOS STILL CLIMBING HILL OF DEATH

WHILE railroad tragedies and street car accidents in the United States have gradually been diminishing in the last ten years, the annual toll exacted by automobile casualties is steadily mounting, says the Stewart Warner Safety Council for the prevention of automobile accidents. Railroad accidents have been cut more than one-third, or from 12,500 in 1913 to 8,078 in 1923, the latest government figures available. Street car fatalities also have been cut down one-third or from 3,060 in 1913 to 2,006 ten years later. Automobile deaths, on the other hand, have increased over five-fold. Against the 3,822 deaths in 1913 we have 16,452 in 1923, and the score is growing each year.

Care, more care and still more care, is the solution of this national problem. The pedestrian must be always on the alert and as spry as a gazelle, if he is to keep out of harm's way, and the driver for his part must never relax his vigilance for a moment when human lives are at his mercy.

EARL W. GOW, Propr.

James Erwin, Clerk. Edgar S. Pierce, Note Clerk.

Outstanding

This brilliant new Oakland Six stands out as the only car combining the advanced engineering features of air cleaner, oil filter, full pressure oiling, four-wheel, brakes, automatic spark and The Harmonic Balancer.

Outperforming

Too, it sweeps far ahead of any other car in its field in performance, revealing a combination of speed, acceleration, power, smoothness and economy heretofore undreamed of in an automobile of such low price.

Outselling

Naturally, the new Oakland Six is outselling the country over—scoring greater gains than any other car—winning and holding the good will of all who buy it.
