Phone 17 Farmington

Will Farmington Grow?

In the next 18 months there will be more money, time and energy expended to induce people to locate here, than has been expended during the past 100 years.

This effort is going to bear fruit.

Advertising and salesmanship always bring results when the commodity being exploited possesses outstanding merit.

The type of people attracted here will be the very best because our location and natural advantages combined with the fact that the publicity and advertising we are receiving under the guidance and leadership of the

Greater Farmington Association

will appeal only to the best people. Quality and quantity means higher land values and lower taxes.

Now is the time to invest.

Let us show you where your dollars will be safest and still earn the most.
