

Mutual Confidence

Every deposit that is made at the Farmington State Savings represents somebody's confidence and faith in this bank.

And as this bank in turn directs this money back among the business and farm enterprise of this community it expresses its confidence in the integrity of this community and its people.

This mutual confidence is the foundation upon which this bank has built a solid structure well calculated to endure.

Save \$35 to \$85 on this Faster, Easier Washer!

THE simple truth about this Washer is that it is worth a great deal more than it cost. Completely Voss-built by the oldest washer manufacturers, in one of the largest, most modern washer factories in the world, the price is, low—very low.

Voss Washers are handed down from generation to generation—valued bequests, because of their sturdy construction, and beautiful design and finish. You'd pay \$35 to \$85 more for a Voss if someone else made it.

Model E-25 Electric—compactly built, with mechanism enclosed. Heavy self-drawing copper tub—one-piece cast-aluminum lid. Four-position self-locking wringer with 12-inch cushion rolls. Easily controlled. Special motor—simple dialbelt drive. Folding bench.

The Floto-Plane Agitator takes advantage of the tendency of clothes to rise close to the surface of the water. At this point it tangles—where acids are thickest—with no roughing of clothes. It is this water-level agitator that makes washing easier on clothes, gets them cleaner, in less time. Come in and let us demonstrate this amazing washer to you.
