Farmington

History Repeats Itself

Three years ago most of the acreage around Farmington was held at Farm prices.

Today a great deal of it is or is about to be subdivided.

Next year will see the real beginning of a building boom.

This is a repetition of what happened in Royal Oak, Birmingham and other suburbs.

Compare prices in those cities with Farmington today.

Believe in your own town.

BUY NOW! You can't go wrong.

"QUEEN HIGH" AT

CASS THEATRE

Next Sunday evening marks the beginning of the second week of the limited engagement of the international musical comedy success "Queen High" at the Cass Theatre, Detroit.

Not in several seasons has a musical comedy been seen in Detroit that has so many favorable assets as this hilariously funny music play, which is nightly convulsing its auditors with laughter with its many humorous, yet at the same time, natural situations.

In Detroit, Laurence Schwahn the producer, has supplied a cast of popular and well-known favorites headed by the dainty and chic Julia Sanderson and the vivacious and inimitable Frank Crumit who are both ably assisted by such Broadwayites as Robert Pitkin, Mildred Brown, Nina Olivette, Joseph Wagstaff, Esthur Muir, Jack Leslie, Don Tomkins, Jocelyn Lyle, Lucille Moore and more pretty girls than a beauty contest, comprise the sparkling chorus.

"Queen High" is a musicalized version of that highly successful farce of a decade ago, "A Pair of Sixes" and concerns the warring of two business partners, whose squabbles finally result in a poker game to decide which, for the period of one year, shall become the master and which shall be come the other's butler. As the story unfolds, the ludicrous situations that befall the partners are such as to keep its auditors in almost a constant roar of laughter.

"Queen High" will positively not play any other city in Michigan this season.

Electric Power in Demand

It is claimed that 67 per cent of the 33,000,000 horse power used in the United States industrial plants is electrical with an ever-increasing demand for the electric motor better to accomplish the tasks formerly done by other forms of energy.

EXCHANGE CLUB DANCING party, New Casino, Walled Lake, Mich., Saturday evening, October 9, 1926. Everybody come. 48-1-c

Build for less. Our coordination and control of sub-contracts and materials enables us to affect great savings in building. You derive the advantages of this. Will build anywhere within a radius of thirty miles of Detroit for the same price. Financial assistance given if necessary. Phone Redford 758-J. 47-3-c

motor car Performance

that startled the motor car industry

THE motor car industry was startled when Buick presented the new Buick with an engine vibrationless beyond belief.

If you have driven this great new car, with this remarkable engine, you know why.

Its fluid smoothness makes other motor cars seem rough, harsh, noisy.

People who have driven Buicks for years and people who have owned much more expensive cars, are captivated by the luxury of this one.
