

## The Comic Strip

## MICKIE, THE PRINTER'S DEVIL

By Charles Sughrue

## This and That

## WALLED LAKE

Death of Mrs. Fred Parmenter  
Mrs. Fred Parmenter died very suddenly Monday about 1 o'clock. She complained of not feeling well Saturday, but was around the house.

Eva Coe was the daughter of Wm. and Dora Coe and was born in West Bloomfield 52 years ago. She married James Lare and to their union one daughter was born, Miss Dora Lare who teaches school in the Bassett district. Mr. Lare died about 12 years ago. Mrs. Lare later married Fred Parmenter, who is left to mourn her. She also leaves an aged mother, three sisters and six brothers.

The funeral will be held Thursday afternoon at 2 o'clock at the house with burial in Wall Lake Cemetery.

Mrs. Clarence Hunter met with a bad accident while coming down the big hill on the North Farmington road. In turning out for a truck into loose gravel her machine went over the embankment pinning her under it. It was at first thought she was seriously hurt, but she is getting along fine.

Warren Wixom and family have moved into the house Edgar Howard built last summer and Dr. Martindale has moved into the rooms over the drug store vacated by the Wixoms.

Clarence Hunter's family has moved into the Charles Coe house. Mrs. G. Thompson is serving on the jury at Pontiac.

The school is planning on a fair the last of October, the same as last year.

Mrs. May Rhoades entertained the Civic Welfare Club last Wednesday.

Several from here attended the wedding of Harry Veeland last Wednesday.

Mr. and Mrs. Paul McGibbons have moved to Commerce where Mr. McGibbons has taken charge of a garage.

Mr. and Mrs. Fink and family have moved to Detroit.

Mrs. Fred Turner will have an auction sale and move to Detroit.

## WEST POINT PARK

Mr. and Mrs. Earl Wolfe and Mr. and Mrs. Harry Wolfe saw had a beautiful day for their motor trip to Lansing last Friday.

Dr. B. C. Thomas has opened an office corner Montcalm and Woodward avenue.

Don't forget our dance in the Community Hall next Saturday night, October 16, corner Seven-Mile and Farmington roads.

Miss Netha Sheets left Tuesday for Columbia City, Ind., to attend the funeral of her father. She was accompanied by her brother-in-law, Homer Coolman. Mrs. Coolman having gone the week previous.

Do not forget the last Sunday in October is Rally Day. Mrs. E. Wolfe is preparing a good program. Let us all be there.

Lloyd Gullen and Earl Gullen and their wives motored to Brantford, Ontario Saturday to attend the wedding of Miss Irene Gullen to Gordon Wallis. Mr. Wallis is the son of Clarenceville's new pastor, Rev. Wallis.

## WEST FARMINGTON SCHOOL

Miss Chamberlain is teacher. Byron Wixom was injured Wednesday when he fell from a swing. He is unable to be in school.

Spelling Honor Roll is: George Regentik, Vlasta Regentik, Marion Rumm and Bessie Palacky.

Arithmetic Honor Roll is: Vlasta Regentik, Claude Luce, Alise and Frances Angell, Eugenia Regentik and Dorothy Roggenkamp.

Did you know that American pioneers sewed pigs' eyes closed to keep them under control while droving them through the country?

## Wintergreen Must Not

## Be Taken Internally

Oil of wintergreen, commonly used in salves and liniments, is extremely poisonous when taken internally even in moderate doses. Drs. N. C. Wetzel and J. D. Nourse report that quantities of less than two fluid ounces have resulted in death.

The toxic effects of this familiar drug, in frequent use in medical practice to allay pain and reduce fever, seem not to have been generally recognized. They are ascribed to the fact that oil of wintergreen, after being taken into the body, undergoes very little chemical destruction, or breaking up into less dangerous components.

Editorial comment in the Journal of the American Medical association says that from the standpoint of public welfare "access to oil of wintergreen should be made impossible for children and for persons ignorant of its poisonous proportions."

## Maps From Planes

With the world's eyes on Alaska, the want of good maps of that region has been felt. Three amphibian planes and a force of aviators, pho-

tographers and mechanics are leaving San Diego to supply the want during the coming season. They can fly over that mountain wilderness between Point Barrow and Nome, of which no chart worthy of the name exists, since the overland surveyors have scarcely touched the region. Map-makers today have facilities which were not known to cartographers in the gold-rush era. The change from the plane-table to the plane itself means an enormous saving in equipment.—New York Evening Post.

## Substitute for Glass

Celcon, patented in Germany by Doctor Eichengruen and brought forward by one of the largest manufacturers of explosives of the world, is used on many foreign automobiles as a substitute for glass. It is unbreakable, bendable and fireproof. Celcon is now used for telephones, electric switchboards, toilet articles, windows for automobiles, airplanes and dirigibles and is a perfect insulating material for all electric apparatus, can be cut and trimmed with an ordinary knife, is impervious to water, gasoline, petroleum, oil, turpentine and gas.

## STATEMENT OF OWNERSHIP

MANAGEMENT, ETC.  
In accordance with the U. S. postal laws, Act. August 24, 1912, the following statement is published as of date, October 1, 1926.

Name of Publication—The Farmington Enterprise.

## STATE OF MICHIGAN, County of Oakland, ss.

I, Howard M. Warner, President of the above named bank do solemnly swear, that the above statement is true to the best of my knowledge and belief, and correctly represents the true state of the several matters therein contained, as shown by the books of the bank.

HOWARD M. WARNER, President.

Subscribed and sworn to before me this 12th day of October, 1926. Hinman G. Nichols, Notary Public. My commission expires July 24, 1928.

CORRECT ATTEST:

E. O. HATTON,  
F. H. NICHOLS,  
M. B. PIERCE,

Directors.

**When a Child Turns on its Parent**

**HOW TO PREVENT FIRES**

1. Matches—Be sure your match is out. Break it in two before you throw it away.
2. Tobacco—Be sure that pipe ash and cigar or cigarette stubs are dead before throwing them away. Never throw them into brush, leaves or needles.
3. Making Camp—Before building a fire scrape away all inflammable material from a spot 3 feet in diameter. Dig a hole in the center and lay it out. Build your camp fire. Keep your fire small. Never build it against trees or logs or near brush.
4. Breaking Camp—Never break camp until your fire is out—dead out.
5. Brush, Burning—Never burn brush or brush in windy weather or while there is the slightest danger that the fire will get away.

One tree will make a million matches, and one of the million matches can turn on its parent and destroy it, and a million more giants of the forest with it.

A three-fold loss results:

- (1) Property loss.
- (2) State expense for fighting fires, \$366,193.33.
- (3) An ideal vacation land denuded of its attractions; for timber fires take the beauty from the woodlands, and cause partial drying up of lakes and streams.

Care—vigilance!—on the part of every tourist and camper, both from Michigan and from without our state,—will stop this loss. Remember that northern forests burn easily. The pine needle floor picks up a spark like tinder. Practice the Prevention Rules shown here, which all trained woodsmen use. Additional copies will be sent free on request to this office. Your friends, and travelers, will be glad to have them.
