Don't Stop Feeding POULTRY FEEDS

just because your hens have ceased laying due to being in a molt

FEED THEM GLOBE EGG MASH
and
GLOBE SCRATCH FEED

which gives them increased vitality to pass through the molting period quicker than on ordinary feed, thereby giving you earlier returns from the sale of eggs.

Remember October, November and December is the period of high egg prices

ALL AMERICA

is talking about the

OAKLAND

ALL-AMERICAN SIX
PRODUCT OF GENERAL MOTORS

Everywhere you go you hear them talking... about this finer, faster Six, the Oakland All-American.

For here is a longer, stronger chassis—smaller wheels and larger tires—a 212 cubic inch engine equipped with the new G-M-R cylinder head, which eliminates harshness and roughness, minimizes spark knocks and increases power—without the use of special fuels.

Why shouldn't this new and thrilling car be thrilling all America? Why shouldn't its success be

already surpassing all previous Oakland achievements? A look and a ride will tell you the story—why everyone is saying, "That's the car!"

A Real A. B. All-White Enamel Gas Range

\$49.50

FIRST—The beauty reflected in its glistening, snow-white surfaces. Then the excellence of its workmanship—the fine craftsmanship exhibited in its graceful design, nice proportion, smooth carefully fitted joints, snug fitting, evenly-balanced doors—these are symbols of value for which you would ordinarily expect to pay from \$15.00 to \$25.00 more.

Two big factors make this offer possible. First, specialized, highly efficient manufacturing facilities, and second—our decision to market a large quantity of these ranges in a short space of time. A snow-white standard gas range at less than the price for a one. A beautiful, glistening all-white enamel range for less than \$50.00. Oven is guaranteed rust-proof, heats quickly, bakes evenly and is splendidly proportioned. It will take largest size closed roaster made. Ovens can be secured either left or right of cooking top.

Doors are snug-fitting and specially received. The old door catches are made unnecessary. The handles are one piece—will never come loose or rattle like the old three-piece handle. Moreover, they are heat proof. There is a porcelain broiler pan in the broiler oven. A porcelain trap is beneath the cooking burners. Then there is a handy service drawer three inches deep—which slides smoothly and is held by a drawer stop to prevent its being accidentally pulled clear out.

The top grates are highly important. These are so designed that they clean easily. Then, no part of the grate comes in contact with the flame. Thus you have increased sanitation and increased efficiency. The grates fit smoothly—top burners are well spaced and produce a quick, hot blue flame.

Other sizes and styles will be shown during this sale—some with oven control—some with smaller ovens and some with larger ovens. Most any size and style of finish of H. B. Gas Range can be secured.
