Short Talks By Thoughtless Mothers

A Pennsylvania Mother says: "I know the worth of Foley's Honey and Tar Compound. We used it for years, and it has never failed us. For grouchy children, feverish colds, disturbing night coughs, it gives us a feeling of security to have Foley's Honey and Tar Compound in the house." No opiates, no chloroform. Foley's Tar Compound carries a strong appeal to thoughtful mothers everywhere. Ask for it. Sold Everywhere.

STATE OF MICHIGAN.
The Probate Court for the County of Oakland.

At a session of said Court, held at the Probate Office in the City of Pontiac, in said County on the 14th day of November, 1927.

In the Matter of the Estate of Present, Hon. Ross Stockwell, Judge of Probate.

In the Matter of the estate of FERRY NACKER, Deceased. George Nacker, executor of said estate, having filed in said court a petition praying that the time for the presentation of claims against said estate be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court.

It is Ordered, that four months from this date be allowed for creditors to present claims against said estate.

It is Further Ordered, that the 3rd day of April 1928 at nine o'clock A. M., Eastern Standard Time, at said probate office, be and is hereby appointed for the examination and adjustment of all claims against said deceased.

STATE OF MICHIGAN.
The Probate Court for the County of Oakland.

At a session of said Court, held at the Probate Office in the City of Pontiac, in said County, on the 1st day of November A. D. 1927. Present, Hon. Ross Stockwell, Judge of Probate.

In the Matter of the Estate of EMMA R. HILES, Deceased.

James L. Hogle, administrator with will annexed of said estate having filed in said court a petition, praying for license to mortgage the interest of said estate in certain real estate therein described.

It is Ordered, That the 12th day of December A. D. 1927, at eight o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place to show cause why a license to mortgage the interest of said estate in said real estate should not be granted.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Farmington Enterprise, a newspaper printed and circulated in said county.

A plume of steam has waved its threat of power for thousands of years from the brow of old Vesuvius. But now enslaved, steam provides mankind with its smoothest, mightiest power. And now, in its new high-compression motor, Hudson gives the smooth, elastic power that only steam has heretofore delivered.

Through the great companion invention to the Super-Six principle, the new Hudson high-compression motor gives the torque, smoothness and power of the steam engine.

These two Hudson inventions give a performance and reliability supremacy that are immediately and continuously apparent whether you drive your Hudson a city block or a hundred thousand miles.

HOW TIMBER FIRES OFTEN START

HOW TO PREVENT FIRES

1. Matches—Be sure your match is out. Break it in two before you throw it away.

2. Tobacco—Be sure that pipe ashes and cigar or cigarette stubs are dead before throwing them away. Never throw them into brush, leaves, or needles.

3. Making Camp—Before building a fire scrape away all inflammable material from a spot 5 feet in diameter. Dig a hole in the center and in it build your camp fire. Keep your fire small. Never build it against trees or logs or near brush.

4. Breaking Camp—Never break camp until your fire is out—dead out.

5. Brush Burning—Never burn brush or brush in windy weather or while there is the slightest danger that the fire will get away.

A carelessly left campfire—a carelessly thrown match or spark—may mean acres of timber, destroyed in a few hours. Only decades of slow growth will replace the loss.

Pine forests catch fire easily. Many travelers from states where there are no forests, or only hardwood forests, do not realize that our northern woods, composed largely of highly inflammable pine, will burn so easily. The underlying bed of leaves and dry pine needles acts like tinder in carrying fire from a spark dropped in it. Fires creep underneath this forest floor and appear in distant places.

Be careful! Help preserve the forest treasures for everybody's use.

Everybody Loses

Waffles By Wire

in many households waffles—that toothsome and nourishing dish—are considered as a treat to be enjoyed only occasionally. This feeling, no doubt, is a sort of "left-over" from the troubled hours of the old-time cast-iron contrivance for waffle-making, with its grease and smell and tiresome running between kitchen and table.

The Electric Waffle Iron has changed all that. Waffles of a deliciousness rarely made in former days are cooked at the table and served fresh, hot and crisp. No grease, no offensive odors, no walking about.

The Electric Waffle Iron runs on 2½ cents' worth of current an hour. It sells at from \$7.95 to \$15.00, on convenient terms.
