## PO-BOX Drugs

### Does LSD Cause Birth Defects?

Questions should be sent to  
the Community Commission on  
Drug Abuse, P.O. Box  
Drugs, Livonia, Mich. 48151.

Q. What are they going to  
do about the laws against  
LSD now that it's been  
proved that LSD doesn't  
cause birth defects in people?  
That's the only danger that  
was ever blamed on it any-  
way.

R.S., Redford  
A. It has still not been  
proven that LSD does not  
cause birth defects in humans.  
All that has been pretty well  
established is that this drug  
does not cause birth defects  
in certain animals that were  
tested. The possibility still  
remains that LSD may be  
implicated in human fetal  
abnormalities. Just remem-  
ber that Thalidomide pro-  
duced no birth defects in cer-  
tain animals.

And by the way, it is gen-  
erally agreed that psychotic  
episodes may be dangerous  
and can be brought about by  
LSD. So there are dangers  
inherent in the drug other  
than the one you refer to.

Q. What do you think if  
parents take tranquilizers, is  
it wrong?

A. In most instances, tran-  
quilizers are taken by adults  
rightfully. There are a num-  
ber of situations, however, in  
which adults do abuse tran-  
quilizers.

Legitimate tranquilizers  
are obtained in some cases  
from black market sources  
rather than on a physician's  
prescription. Some people  
obtain this sort of medication  
by lying to a physician about  
something like a "death in the  
family." Others use tran-  
quilizers given to them by a  
"friend." Still other people  
take more doses in a day  
than the physician author-  
ized, or take them for a  
longer period of time than  
authorized.

These are just a few exam-  
ples of how adults may be  
"wrong" in taking drugs. And  
by wrong we mean that they  
may be endangering their  
health. The only "right" way  
for one to take tranquilizers  
is on a prescription by a  
physician.

Q. Would you please send  
me any information you  
have on drugs. I am doing a  
report on drugs for school  
and I would like to know  
something about drugs. P.S.  
Please hurry.

D.S., Detroit  
A. We have contacted you  
and we hope that we were of  
some help to you. Readers  
who have questions of simi-  
lar nature can be helpful in  
two ways. First, be specific.  
"Drugs" do cover a lot of  
ground. Secondly, try not to  
be in a hurry.
