#### WATERFOWL REMINDER

The Department of the Interior's U.S. Fish and Wildlife Service reminds waterfowl hunters that non-toxic (steel) shot is required for all waterfowl hunting and cool hunting during the 1991-92 hunting season. This is the final year in a 5-year con-tersion no nontoxic shot for waterowl hunting nationwide.

In addition, it is illegal to possess lad shot, either in shot shells or as lose shot for muzzleloaders, while huting these species.

## Important advice to an exercise-aholic

Dear Myrna: I am an exercise-abolic. I go to exercise class every day and run at least 30 miles per week. I pump iron at home five days a week – heavy. I can't seem to help myself. It took me a long time to admit that I do have a problem. I don't even warm up properly. Yes I am starting to feel it. I'm only 22 years old, but sometimes I feel 82.

It's called overtraining and under-loving yourself. Doing too much, too fast and too hard will take its toil on you. A well-designed exercise program allows time for rest and recuperation. Do you have any specific injuries, knee problems, ahin splints, elbow or shoulder problems; foot problems?

My advice to a non-exercise-aholic would be:

Be realistic about your abilities and your state of conditioning or lack thereof.

lack thereof.

Work up gradually to your desired level of activity.

Take up an activity you enjoy. Do different things to break up the monolony,

Listen to your body. Don't work through pain. Reat an injured or overstressed area and change your activity once in a while.

Help the healing process with wet ice packs or if in need, go to a

• Help the healing process with wet Ice packs or If In need, go to a doctor.
Now how do you fit In?
When you pump iron do you work with a trainer or have you had proper instruction? If you are pumping — as you say — heavy duty, three days a week Is all you need.
Are the exercise classes you are taking impact or low-impact aerobics? Try to vary this with a little cross-training. What about swimming instead of running?
Do you like feeling 82 years old? You have taken a step in the right direction by admitting your problem. Now you must fix it.
What about confiding in a good friend and letting that friend help you. Report your activities to him or her daily.
Talk to a 'friendly' exercise expert and develop the proper program just for you. Do you have any eating disorders? Sometimes we see a connection between exercise-sholles and eating disorders.
Please be careful ... exercise is for a lifetime. Take it easy. Be good to yoursel!
