What do these health-care facilities have in common? They are the first in their field to develop or utilize:

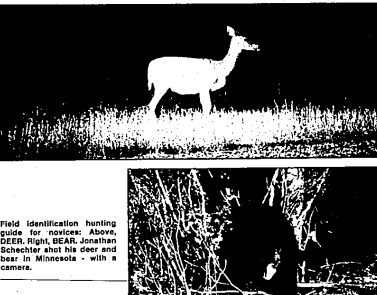

- VAG laser surgery for treatment of secondary cataracts
- Nova Curve lens, designed especially for the VAG laser surgery
- Excimer laser surgery for treatment of glaucoma
- Radial Keratotomy for correction of nearsightedness

These laser surgeries are fast, virtually painless and they require no hospital stay or recovery time.

# What a modern hunter just can't be without

By Jonathan S. Schechter  
Staff Writer

November 15th. Opening day of the firearms deer season. This year, I'm going to get the big one. I'm ready. No more long walks, cold toes and missed shots. I never know how much hunting could be so much fun. Thank God for micro-processor technology and other fantastic innovations. I've got the killing edge.

Field identification hunting guide for novices. Above, DEER, Right, BEAR, Jonathan Schechter shot his deer and bear in Minnesota - with a camera.
