Consider these doctors' accomplishments, and you will understand why they've earned women's trust.

Sinai physicians are known around the world for pioneering gynecological laser procedures for endometriosis and other menstrual disorders. Here, surgeries using lasers and tiny scopes mean less pain and shorter recovery times for women.

In our Mothers and Infants' Center, our doctors make sure that an obstetrician, an OB anesthesiologist and a neonatologist are on-site 24 hours a day. And our physicians' skills are reflected in a Cesarean

section rate that's 15 percent below the national average.

From delivering quintuplets to providing breast imaging to tailoring oncology and psychiatry just for women, these physicians — and all our doctors — emphasize the utmost in quality and comprehensive care.

And for women, that's something you can really place your trust in. Call 1-800-243-3627 for referral to a Sinai physician.
