

Meadows — aglow with 10 new homes

THIS SPRING, everything is coming up houses. Ten houses, all designed, built, decorated and landscaped by members of the Builders Association of Southeastern Michigan, will be on display in the Meadows At Oakland Farms subdivision in northeast Oakland County during Homearama Spring 1992.

The houses' showcase, north of Rochester, runs May 7 to 25. Each home is fully furnished and each features the newest designs in living convenience and construction.

Bernard Glickerman, president of BASM and Crosswinds Communities Inc. in West Bloomfield said:

"Homearama Spring 1992 is our 10th annual public showing of homes. Every home features exciting advancements in technology and showcases the latest in architectural design. We are expecting the spring weather to provide very large turnouts."

"We are very excited about Homearama Spring 1992. This year, BASM will sponsor Homearama along with cosponsors Detroit Edison, Consumers Power and Standard Federal Bank," said John Scaccia, Homearama

Spring 1992 chairman and president of Scaccia Building Co. in Rochester.

"AMONG THE homes we're highlighting," Scaccia added, "is the Smart House, sponsored by Detroit Edison, the first of its kind in Michigan featuring totally integrated automation. Additionally, Consumers Power will sponsor a house featuring the latest in gas technology and energy efficiency."

The homes will be in the Meadows At Oakland Farms subdivision, on Gunn Road, just west of Rochester Road, in Oakland Township (four miles north of downtown Rochester).

The subdivision is being developed by M.J.C. Construction, Mount Clemens, and S.R. Jacobson Development Corp., Birmingham. The fully furnished homes are priced from \$300,000 to \$500,000.

A plan book that highlights each house is available. Admission to Homearama is \$6. Discount coupons, good Monday through Friday, are available from the Detroit Edison, Consumers Power or Standard Federal Bank offices.

There is ample free parking, and refreshments can be purchased at the site. For more information, call 313-737-4478.

Architectural innovation abounds for show goers

TEN NEW homes, each fully furnished and decorated and featuring the latest innovations in architectural design, will be displayed at Homearama Spring 1992.

The homes are built by members of the Builders Association of Southeastern Michigan (BASM).

Homearama Spring 1992 is in the Meadows At Oakland Farms subdivision, on Gunn Road, just west of Rochester Road, in Oakland Township (four miles north of downtown Rochester).

SELECTED HIGHLIGHTS from each home will give a glimpse of the many exciting features visitors can expect to see in the Homearama homes:

- A sunken living room in "The Albertville," by Classic Custom Homes, Inc., Bloomfield Hills, has Palladian windows with atrium doors and a wet bar next to a marble fireplace.

- "The American," built by James Joseph Enterprises, Inc., Rochester, Hills, features a full theater in the basement complete with a bar and Coke machine. Decorated in a '50s theme, it's the ultimate entertainment design.

- Kamego Building Co., Sterling Heights, built "The Devonshire," with a master bedroom that contains a deep walk-in shower and Roman-style whirlpool with angled walls.

- Cape Cod accents enhance "The Franklin," a traditional colonial by

Pinnacle Residential Homes, Inc., Rochester Hills. An eight-foot mahogany door with side lights and an eight-foot high window over the door further add to the Cape Cod flavor.

- Floor-to-ceiling bay windows in the front wall of the living room and the end wall of the dining room add light and create dramatic open space in "The Knorrwood," by Robert R. Jones Associates, Inc., West Bloomfield.

- A unique two-way fireplace in the master bonus room creates the illusion of two fireplaces in one in "The Lexington," by Robertson Brothers Co., Troy.

- A two-level, walk-in closet and an open master bath create an integral living space in "The Porto Fino II," by Capitol Homes Associates, Mount Clemens.

- "The Smart House," built by Wake-Pratt Construction Co., Troy, and sponsored by Detroit Edison, features an innovative in-ground, geothermal heating and air conditioning system that supplements the water heaters.

- A circular stairway winds to a bridge overlooking rooms divided by pillars, fluted columns and posts in "The Stratford," by M.J.C. Construction, Mount Clemens.

- The four fireplaces of "The Sussex," by S.R. Jacobson Development Corp., Birmingham, provide the perfect atmosphere for romance or an evening of entertaining.
