Insulation works in Summer, too.

INSULATED BAG

Insulation works at 100° as well as at 10° so why wait for cold weather to enjoy its benefits? Insulate now — before hot summer weather, and keep the heat where it belongs — outside your home. With proper insulation, you'll notice a cool difference in every room in your house. Insulation pays year-around dividends. Just as it saves you money on fuel costs in winter, it saves you money on air conditioning costs for summer comfort. Give your family a summer treat, now, and be ready for added comfort and savings next winter.

Mail the attached coupon for our FREE Insulation Facts Bulletin.

Mail to your local Consumers Power Company office, All Marketing Department
