THE LONG AND SHORT OF MAKING MORE ON YOUR MONEY, WHATEVER YOUR ECONOMIC OUTLOOK.

RISING RAILROAD FOR THE LONG TERM

FAST-TRACK FUND FOR THE SHORT TERM

The economy is recovering. But even the experts disagree on what interest rates will do.

So First of America has two financial ways for you to invest. No matter what your strategy.

The long view. If you think rates will drop, or are that you should go with a longer-term investment and get a rate guaranteed for five to six months over the next two years, The Rising Rate C.D.

It starts at a bonus rate of 7 percent per annum. And you'll end up earning 6 1/2 percent for the final term. You can withdraw part or all

of your money in the first ten days of every two-month interval without penalty. All it takes to get started is a \$1000 deposit.

The short view.

If you predict rates will keep going up, you should this year, invest short-term with the FirstRate Fund.

You'll make a 5.75 percent per annum from the day you sign up through July 31.

So the sooner you invest the more you'll make. After July 31, the per annum rate is based

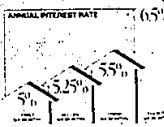

on the weekly Treasury Bill. So if the T-Bill goes up quickly, you'll continue to benefit from it.

A new deposit of \$10,000 is required, and you can get your money seven days after notifying us.

It's a spectacular rate of return plus liquidity in these uncertain times.

Of course, your investments are FDIC insured up to \$100,000 per depositor. And you can set up your good through July 31.

Call or visit the office nearest you. Because no matter what your point of view, you can't go wrong investing with us.
