

Audiences: integral part of any TV production

CABLE CONNECTION
LARK SAMOUELIAN

Audiences are usually an afterthought part of every television production, even though it may not be planned. Most people who are involved in television have friends and family who are curious about what goes on in the studio.

There are usually 10 to 12 people to whom the television talent plays. I would suggest that most producers don't even think about the fact that these people are an audience. Therefore, producers, please give conscious thought to inviting audiences to be a part of all your television shows.

The host may interact with them, and it is a special applause to the guest to have people who are interested in what they are doing or saying. If you would like to experience being part of an audience very soon, please set your schedule for Oct. 9 between 1:30 and 1:45. An audience will be seated in the SWOCC television studio for the show "Schizophrenia, Brain Disease and/or Cultural Pathology." The show will be-

gin taping at 2 p.m. Special guests are Dr. Richard Atkins, psychiatrist/Lafayette Clinic and Veteran's Administration Hospital, and Dr. Daniel E. Deasle, psychiatrist from upstate New York. Call 473-7266 for seating.

The host for this program is Dr. Phillip Singer, School of Health Sciences, Oakland University. Co-producers are Todd Whitman and Dr. Phillip Singer.
