# Windows galore

Rich in windows and skylights, the Covington is designed to allow as much natural light as possible in every room of the house. Even the covered porch has three skylights, and the garage has three large windows.

The vaulted dining room and living room are the brightest of the formal rooms at the back of the house. Wide multi-paned windows span most of the rear-facing wall, and six skylights provide extra illumination.

The entryway also has a lofty vaulted ceiling, brightened by two skylights. A small bathroom is just inside the front door, close to the pass-through utility room.

Windows rim the left wall of the combination family room/kitchen.

The library, to the immediate right of the front door, can be used as a home office or as a private sitting room for the master suite. Luxury amenities in the master bathroom include an oversized shower, a garden tub with space for tropical plants in the tub alcove, and sky-lit twin basins in the vanity outside the bathroom. The sleeping area is vaulted and has a security system, a large walk-in closet and a private deck, enclosed by a wall.
