VITALITY. YOU CAN FEEL IT IN YOUR BONES.

What you can't feel, however, is osteoporosis - the bone-thinning disease that affects about 25 million Americans, causing bones to weaken and break.

When hip, spine or wrist fractures occur, osteoporosis can rob you of your independence by making even the most routine

activities virtually impossible. As many as one out of every two women past menopause - and one out of every five men - will develop fractures because of osteoporosis. While osteoporosis can't be cured, it can be prevented.

To learn more, speak to your doctor. Or contact us.

National Osteoporosis Foundation.
We Have A Vital Interest In Your Bones.
