"I listen to more of it all the time," said Vincent, 29. "We have a lot of people who come here from West Bloomfield, Southfield and Birmingham because of our entertainment."

The restaurant also caters to theatergoers. A package that included a four-course dinner, transportation to and from "The Phantom of the Opera," and desert and coffee after the show proved very successful, Jennifer Vincent said.

"We are looking at making this a gathering place," she said. "You can dance, talk with friends or listen to music. People want a dress-down style."

And if the food, entertainment and decor are alternative, so is the building itself. A former aluminum smelter, warehouse and manufacturing plant, its brick, wood beams and unusual lighting fit right in to its new purpose.

Jennifer, a Chicago native and former flight attendant, has coaxed Mark Vincent into a lot of travel, something the couple says has influenced their approach to a competitive business.

"We're always seeing things, trying food that you aren't exposed to as much in the Midwest," Jennifer said.

"People like something different, as long as it's good," Mark said. "That's why you see so many of the older restaurants in Detroit going out of business. They didn't change and most of their clientele are either dead or in Florida."

Marathon bargaining sessions last weekend enabled the Walled Lake Consolidated School District and its teachers' union to reach on Sunday tentative agreement on a new four-year contract.

The two sides wrapped up negotiations at about 8 p.m. Sunday, enabling Monday's classes to go on as scheduled, said Lois Lange, director of personnel/community relations and part of the district's six-member bargaining unit. A six-month extension of the old contract was to have expired at midnight Sunday.

"We bargained pretty much the whole weekend," Lange said. "Our goal was to settle it (last) weekend and we did."

Before details can be made public, the contract — which is re-

troactive to last year and extends through the 1995-96 school year — must be ratified by the 641-member Walled Lake Education Association and, subsequently, by the school board, Lange said.

According to a press release issued Monday by the district, teachers are expected to OK the contract within two weeks with school board ratification "shortly thereafter."

Karen Murray, chief negotiator for the teachers' union, could not be reached for comment.

Although Lange couldn't discuss terms of the settlement, she said a major subject at the table last weekend was how the district could improve the quality of education to meet changing times.

"A great deal of time was spent discussing the changes in education and how to effectively deliver them to the children," Lange said.

Topics included: improving educational strategies at the building and district levels, focusing on "what's taught and how it's deliv-

ered;" and the possible expansion of a team teaching pilot program begun two years ago in the middle schools.

Besides Lange, members of the district's bargaining team included Thomas Gagne, director of labor relations; Sandra Motz, executive director of business services; Hugh Davies, assistant superintendent for elementary instruction; William Calhoun, Walled Lake Western assistant principal; and Barbara Garbutt, Commerce Elementary School principal.

For the union, Murray was joined by Nancy van Leuwen, Walled Lake Education Association president; secondary school teachers Marcia Smith and Sandra Andrews; and elementary school teachers William Bell and Kimberly Quinn.
