Sheen, Munsel Series Stars 'Stop Putting Yourself Down' Will Be Topic

Faith, college life, synergistics, and music make up a varied 1971-72 lecture program for the Northville Town Hall.

The speakers, announced last week as the Town Hall brought its current series to an end, are Bishop Fulton J. Sheen; humorous writer Irene Kampen, who returned to college at age 45; Dr. J. Clayton Lafferty, whose firm, Human Synergistics, specializes in human development within organizations; and opera star Patrice Munsel.

Dates for the lectures will be Oct. 14, Nov. 11, March 9 and April 20, all Thursdays. The hour is 11 a.m.

His definition of the term synergistics is "two or more to achieve an effect of which each is incapable," and his talk is scheduled March 9.

Miss Munsel, appearing April 20, will explore the world of music "From Grand Opera to Baroque Rock," a gamut that pretty accurately describes her own career.

Proceeds from the Northville Town Hall are given each year to assorted charities in this area.

BISHOP SHEEN

Dates for his lecture as a talk for all faiths, will begin the series Oct. 14. His title, "Life is Worth Living," is the same one he used for his famed television series that was on the air from 1951 to 1957. He has been bishop of Rochester, N.Y.

Irene Kampen, author of "Due to Lack of Interest Tomorrow Has Been Canceled," will speak Nov. 11. Her book is a report on her experiences when she returned to the University of Wisconsin, and the title is taken from one of the student graffiti she found there.

DR. LAFFERTY, a graduate of Wayne State University in clinical psychology, is specializing in a new field in both business and human relations.

You can do it!

Are too many changes coming at you these days, and too fast?

You're not alone.

But you can learn to keep up with change, and to discover more good in change than you ever guessed.

Robert H. Mitchell, of The Christian Science Board of Lectureship, says it takes willingness to let go of old ideas, and to learn about yourself as God's image. It may surprise you to learn how good you really are, how capable, and able to stay in tune with progress.

Hear Robert Mitchell's free, public lecture "Are You Receptive to Change?"
