

Accident from page 1A

passenger seat, and Sawulski and 16-year-old Kenneth Andrew Johnson of Farmington were riding on the trunk of the car.

At about 9 p.m. Monday, police said, the car swerved to the right. Although it stayed on the road, Sawulski and Johnson fell off. Both sustained closed-head injuries.

Sawulski was taken to Providence Hospital in Southfield. He was pronounced dead at 8:20 a.m. Tuesday. Johnson was taken to Botaford Hospital, where he was treated and released.

Neither excessive speed nor alcohol appear to have been a factor in the accident, said Sgt. Ray

Cranston, traffic supervisor with the Farmington Hills police.

"Post-event witnesses are being interviewed," Cranston said. "We had accident investigators working out there until 8 a.m."

Cranston said one account of the accident explained the car's action as defensive, to avoid being hit by a "white Jeep." But another account conflicted with that one, he said.

No charges have been filed pending the outcome of the investigation. Funeral arrangements were incomplete at press time. Myers said although the school

responded quickly to the news to make sure Sawulski's classmates would be counseled, the tragedy won't be forgotten soon.

"It will take us a while to get over this," Myers said.

The funeral will take place Saturday morning at the Heene-Sundquist Funeral Home in Farmington, with the time yet to be determined.

Funeral Mass will be at Christ the King Catholic Church on Grand River and Burt in Detroit. Burial will be in the Holy Sepulchre Cemetery in Southfield. Memorial contributions can be made to the James Sawulski Memorial Scholarship Fund.

Cranston said alcohol was a factor in another fatal accident.

The Oakland County Medical Examiner found a blood alcohol level of .22 in the body of Maureen A. McLaughlin, 32, of Farmington Hills, who died after she lost control of her car and it flipped over on May 21.

A driver is considered legally intoxicated with a blood alcohol level of .10.

McLaughlin had attempted to pass a van on the right side in a flare lane at the "T" intersection of Haggerty and Village Wood at an excessive rate of speed when she lost control and her car flipped over five times, police said.

Stein from page 1A

indicated by past millage votes ... " said Stein in reference to last February's tax renewal. "If they have to pay a little more every year to keep with inflation or to ensure the quality of education, that's fine."

"However, we shouldn't be throwing money at the problem where money isn't the solution."

Stein believes in a pragmatic approach for solutions to school violence, student safety and repairing aging facilities.

He said fighting should be dealt with on an individual level. He believes conflict resolution courses are part of the retraining of education he advocates.

Stein said student safety, which has been brought to the

"I think there's a difference between being listened to and having your recommendations acted upon. If they (parents) don't feel they're being listened to, that's a completely separate problem."

school board candidate*

forefront by main-road busing, needs careful consideration.

In such controversies, though, some parents contend school board members are not responsible. Stein said he understands.

"I think there's a difference between being listened to and having your recommendations acted

upon," Stein said. "If they (parents) don't feel they're being listened to, that's a completely separate problem."

"Parents should have satisfaction. There is always a solution to any given situation."

Stein has learned the art of resolving disputes through three

years of law school. He's studying for the bar exam in July. He wants to be a patent attorney.

During graduation ceremonies at Wayne State, the commencement speaker told the future attorneys the need to give back to the community. Stein sees his run for the school board as fulfilling that.

Stein's going door to door and mounting a phone campaign. He's not representing any group or interests, he added. The issues concern everyone.

His education in Farmington Schools has served him well. "Mainly, that's what I am concerned about now," he said. "I want the students to have the same opportunities that I had."

Providence Medical Center-Providence Park: Meeting your healthcare needs at one convenient location.

Providence Medical Center-Providence Park offers a full array of outpatient services to care for you and your family in our Ambulatory Center and the adjoining Medical Office Building. More than 110 doctors practicing in 35 specialties provide outpatient services at Providence Park including:

CITY OF FARMINGTON HILLS NOTICE OF PUBLIC HEARING ON INCREASING PROPERTY TAXES

The City Council of the City of Farmington Hills will hold a Public Hearing at 7:30 p.m. on Monday, June 7, 1993 in the City Council Chambers at City Hall, 31555 W. Eleven Mile Road, Farmington Hills, on the levying, in 1993, of a proposed increase of \$.4211 Mills (\$.4211 per \$1,000 SEV) over the base tax rate for storm drain construction, the acquisition of property and other capital improvements as well as increased operating costs, including additional public safety personnel, pursuant to Act 5, Public Acts of Michigan 1982 and on the proposed 1993-94 Budgets.

If adopted, the proposed additional millage would increase revenues from ad valorem property taxes in 1993 otherwise permitted by Act 5, Public Acts of Michigan, 1982, by approximately 5.14% over the 1993 base tax rate of \$8.1906 Mills. The City presently is authorized to levy \$8.9110 Mills for operating purposes and parks capital improvements. The millage rate increase results from adjustments to the 1992 tax levy of \$.2223 Mills to make up for required rollbacks and \$.1988 Mill increase to balance recommended budgets as follows:

Drains (Roll up to \$.6000 Mills)	.0131
McMahon Property Debt	.0503
Parks (Roll up to \$.5000 Mills)	.0109
Added Public Safety Personnel	.0579
Capital (Roll up to \$.3575 Mills)	.0078
Operating Costs	.2811

The recommendation for 1993-94 levy is \$8.1117 Mills (\$.8117 per \$1,000 SEV) for operating and capital improvement purposes. The \$.5000 Mill (\$.5000 per \$1,000 SEV), approved by the voters on May 7, 1991 for Parks and Recreation Capital Improvements, will also be levied in addition to \$.4532 Mill (\$.4532 per \$1,000 SEV) for exempt debt. The amounts actually levied during the past several years are listed below:

Fiscal Year	Operating & Capital Millage	Drain Millage	Parks & Rec Millage	Exempt Debt Millage	Total Millage Levied
1988-89	8.2648	.0000	.4401	.5951	9.4000
1989-90	7.7759	.0000	.4137	.6405	8.8302
1990-91	7.3490	.6000	.3910	.5310	8.8710
1991-92	7.2731	.6000	.5000	.4979	8.8710
1992-93	7.2731	.6000	.5000	.4930	8.8661
PROPOSED					
1993-94	7.5117	.6000	.5000	.4532	9.0649

The purpose of this Hearing is to receive testimony and discuss the levy of the additional millage rate. The City Council will approve all or any portion of the proposed additional millage rate on June 7, 1993, after the aforementioned Public Hearing.

KATHRYN A. DORNAN,
City Clerk
