

Here's what we're doing in Farmington to improve your service down the line.

We want your electric service to be something you never have to think about. So we're checking the circuits in your area, all the way up to your home. We're using infrared cameras to find hot spots in the lines. We're using ultrasound to check the condition of poles. We've added more than 1,200 contract personnel to get the job done quickly and efficiently. It's all part of our continuing commitment to provide the best electric service possible. For you, your neighbors, and all of our customers. See your Bright Ideas newsletter for more information.

And remember, the number to call to ask questions or report outages is

1-800-477-4747.

We're keeping you posted.

Farmington	OUR GOAL	COMPLETED SO FAR
Miles of line checked	23	17
Number of poles checked	545	545
Number of circuits checked	24	17
