Collins of Detroit, and other distinguished speakers will be present. Excellent music at each service.

### The First Thanksgiving.

The first fixed and official day of Thanksgiving was held in the year 1665. In the old public records of the court of Connecticut we find the following order which the court issued on October 11, 1665, appointing a day of general thanksgiving:

"This court doth appoint a solemn day of general Thanksgiving to be kept throughout the colony on the last Wednesday in November, to return praise to God for His great mercy to us in the continuation of our liberties and privileges both Civil and Ecclesiastical, and for our peace and preventing those troubles that we feared by foreign enemies and for the blessings in the fruits of the earth and the general health of the plantations."

It will be noted that the appointed day was Wednesday instead of Thursday, as we now celebrate. The spelling is odd in many cases

### Illinois University Endorses Stock Show

The Hon. Eugene Davenport, in a recent interview, expressed himself as follows, relative to the International Live Stock Exposition which will this year be held from Nov. 26 to Dec. 3.

"It is a mistake to suppose that the promotion of agriculture interests and affects only farmers. The truth of the matter is that other people are more interested and more affected by agricultural progress than are the farmers themselves. Along the line of live stock husbandry the greatest public need is that the common man should enjoy good animal products at a reasonable price. It is a simple proposition when reduced to its lowest terms, but to see these products at a reasonable price means that every man specializing in live stock must employ every device known, and discover many more not known to improve the quality of his product as well as to lessen the cost of production. To this end, no single agency bears greater results than the bringing together each year at the International Live Stock Exposition, Union Stock Yards, Chicago, specimens of the best cattle, horses, hogs and sheep that the world has been able to produce. Such a gathering takes place this fall, and not only farmers but men in all kinds of business enterprise in the country should support and attend the exposition."

## When You Buy a Fine Horse

you do not turn him out along the road to graze. You put him into a field where you know the fences are all strong and where there is no chance of his breaking through and escaping. Why not follow the same plan with your money?

With all the protection you can give to your cash around the house, it is never safe. There are no hiding places that cannot be discovered. There are no houses that are absolutely fireproof. The newspapers are filled daily with accounts of robberies and destruction of concealed money. In other words your fences are never secure.

Protect your money just as you would your live stock. Put it into our bank where it will be perfectly safe.
