ask SUCCESSFUL Farmers

COMPARATIVE tests made by successful farmers in this locality prove that "AA QUALITY" Fertilizers produce larger yields, better quality, and increased profits from every acre.

Read the letters printed at the right. Any of these farmers will be glad to tell you of their success with "AA QUALITY" Fertilizers. Do not let this opportunity to increase your profits slip by.

"AA QUALITY" Fertilizers produce better crops—consistently profitable crops even in the "bad" seasons. These Fertilizers provide just the right balance of the necessary plant-food elements to maintain continuous growth, even under adverse conditions.

Nothing is taken for granted in making "AA QUALITY" goods. Their formulae are based upon a thorough knowledge of the needs of each crop and each soil condition, checked by constant field tests.

Every batch of "AA QUALITY" goods is tested in our laboratory—our own tests are fully as exacting as any encountered in the field.

Over sixty years of experience and more than sixty years of successful crop production are back of every bag of these fertilizers. Perfect mechanical condition, always.

Make more money from every dollar invested in fertilizer this season by using "AA QUALITY" Fertilizers on your crops. Insist on getting "AA QUALITY" Fertilizers from your dealer.

100 BUSHEL PER ACRE... Mr. Orson Zeig, of Tippecanoe, Marshall Co., Ind., says: "I have grown what our county agent estimates will be a 124-bushel-per-acre crop, in spite of the fact that this has been a poor corn year. This corn ripened two weeks ahead of unfertilized corn and it is of fine quality."—October 11, 1927.

DAILY MATURITY AND GOOD QUALITY... Mr. E. T. Harper, of Sharnville, Tipton Co., Ind., says: "This season I had the best field of corn I ever raised, and attribute the early ripening and good quality to the use of Horsehoe Fertilizer. (AA QUALITY). It is a good free driller, and the strength of some better than of other makes I have used."—October 25, 1927.

MICHIGAN GROWER WINS PRIZES WITH "AA QUALITY"... Mr. John C. With, of St. Louis, Gratiot Co., Mich., says: "I have been showing farm products at the Michigan State Fair and Chicago International for 3 years with very good success. Five consecutive sweepstakes first on beans, peas, and soy beans at the Michigan State Fair; two world's championships on soy beans, and two on beans at Chicago in the past three years. I used 'AA QUALITY' Fertilizers on all my crops, and find that they especially aid in my scheme of livestock, sweet clover and alfalfa crop, thereby making a balanced ration for the plants."—October 4, 1927.

\$1,000 PER ACRE FROM ONIONS... Mr. Roy Beldridge, of Davison, Genesee Co., Mich., says: "This year I used 700 lbs. of Horsehoe Fertilizer (AA QUALITY) per acre on my 7 acres of onions. The yield was approximately 800 bushels per acre of valuable onions, which are bringing me \$1.25 per bushel, due to the fact that they matured early and are of the best quality."—October 4, 1927.
