The Beautiful New Ford Car

Flashing Along The Highways

Flashing along the highways, in and out of traffic, alert and dashing, are the new FORD Cars. The brilliance of their genuine nickel-plated trimmings distinguishes them, and their equally brilliant performance sends them far ahead of anything in or near their price-field.

If you haven't one of these smart new FORDS coming, you'll want one when warm weather comes around. Why not choose the model now?

If You're Keeping Your "Model T"

for awhile, now is the right time to get in shape for the driving season. Bring it in before you find it hard to part with, and let our efficient mechanics tune it up or overhaul it. It's a good investment in trouble-prevention and peace of mind.
