New Fire Truck Will Look Like This

Above is a photograph of the model 38-39 La France fire truck which the City of Farmington purchased recently. The truck is to be delivered the latter part of June or early in July.

HELP MAKE TRAVEL SAFE A WISE PUBLISHER

Michigan is about to launch the greatest accident-prevention campaign in the history of the automotive industry. Beginning on Friday, May 10, the Michigan Safety Council, headed by Gov. Fred W. Green, is starting a drive that will continue until June 30, urging that all motorists see to it that all mechanical imperfections in their cars are eliminated, that they pay strict attention to traffic rules and in other ways dedicate themselves to the task of reducing the number of traffic accidents in this state.

This is a statewide campaign that is well worth while. It will have the hearty co-operation of every motorist who not only values his own life, but who is considerate to the safety of the traveling public. It is high time that a campaign of this nature was put under way. The toll of motor accidents has grown to enormous proportions in recent years. This can be cut down by recognizing some of the simple safety measures that will be stressed during this campaign. Mayors of cities, presidents of villages, police chiefs and all other law enforcement bodies will assist in the campaign. With an automobile for every five persons traffic problems are growing by leaps and bounds, this mostly by the motorist. Every citizen will have his part in this movement. Let's make our highways safe to travel.
