Amid all the confusion of advertising claims and counterclaims, choosing an RK surgeon boils down to one single word.

Trust.

You're tired of wearing glasses and contact lenses and you've decided to have Radial Keratotomy. Certainly you want a surgeon with experience in refractive surgery. A location near your home can save you more time than the actual RK procedure takes. And it would be perfect if your surgeon were involved in the leading edge of this evolving discipline...like being associated with a leading teaching and research hospital. But most of all, you want someone you can trust. Really trust. That makes the choice easy.

WE'RE INTERESTED IN MORE THAN WHALES.

A small fish in a big pond. That's how a lot of small businesses feel when they deal with a big accounting firm. And while that might be true of some firms, it's not the case at Arthur Andersen.

Arthur Andersen's Small Business Accounting Group is dedicated to helping small businesses by providing the benefits of a worldwide organization that specializes in services such as preparation of financial statements, client accounting, payroll services, tax returns and tax projection consulting.

And you'll be working with a hands on professional who understands the entrepreneur and what it takes to make your business prosper.

At Arthur Andersen, we don't succeed unless you succeed. That's why all our services are designed and priced to add value to your business—not subtract it.

So call Ann Black, Director of Small Business Accounting at 313-994-1288. Because there's nothing that says today's small fish can't be tomorrow's whale.
