1994 Geo lineup adds refinements, new colors

Geo freshens its exterior color palette for '94 and introduces R134a refrigerant — a non-ozone depleting CFC substitute — to its air conditioning systems.

Summaries of each of the Geo vehicles follow:

Prizm

The flagship of the Geo lineup — completely redesigned in 1993 — offers these refinements for 1994:

- A passenger-side air bag as standard equipment
- New "dual-mode" safety belts that simplify the proper installation of child safety seats
- R134a refrigerant — a non-ozone depleting CFC substitute for the air conditioning system
- Champagne exterior color
- A 1.6-liter MFI 4-cylinder engine is standard with a 5-speed manual transmission; a 1.8-liter MFI engine is optional. A 3-speed automatic transmission and an electronic 4-speed automatic transmission are optional. Standard equipment includes dual air bags and Scotchgard (TM) fabric protection. The Manufacturer's Suggested Retail Price (MSRP) for the Prizm begins at \$10,730.

Metro

Fuel efficiency and affordability continue as Metro's hallmarks for 1994 with these refinements:

- R134a refrigerant — a non-ozone depleting CFC substitute for the air conditioning system.
- New exterior colors: tropical green metallic, sky blue metallic and shadow gray metallic.
- Three-door and five-door hatchback body styles are offered. All Metros have a 1.0-liter, three-cylinder SOHC engine with throttle body fuel injection. A manual 5-speed manual transmission is standard; a 3-speed automatic is optional.

Standard features include Scotchgard (TM) fabric protection, automatic front door locks and child security locks for the sedan's rear doors. The Metro XFI has been the most fuel efficient vehicle sold in the U.S. for the past four consecutive years. The MSRP for Metro begins at \$7,195.

The Prizm, completely redesigned in '93, adds refinements like dual-mode safety belts and air bags for safety.

Geo Metro claims fuel efficiency and affordability as its hallmarks.

The fun and affordable eco-friendly '94 Geo Tracker adds a non-ozone depleting CFC substitute for the air conditioning system.

Tracker

The fun and affordable '94 Tracker has notable refinements for 1994:

- A new fabric design with an unconventional mix of contrasting colors as an option on base model Tracker convertibles
- An optional top-of-the-line Delco dual compact disc/cassette system.
- R134a refrigerant — a non-ozone depleting CFC substitute

for the air conditioning system.

- A new console with dual cupholders and additional storage space.
- Center high-mounted stoplight.

Tracker has quieter tires for 4WD models and new optional aluminum wheels. Tracker has three new exterior colors — shadow gray metallic, sky blue metallic and tropical green metallic. The MSRP for Tracker begins at \$10,865.
