Interior designers to speak

The husband/wife design team of Bruce and Susan Burdlek thrive on diversity — taking on projects with an eye on function and form, bypassing the urge to follow a fashion or fad.

They will discuss their work 7:30 p.m. Thursday, Jan. 20, at Lawrence Technological University, 21000 W. 10 Mile at Northwestern Highway, Southfield.

roornwestern Highway, Southfield.

The Burdicks are the principals behind the San Francisco-based Burdick Group, founded by Bruce in 1970. In 1981, Susan, a native New Yorker, was handling the interior design for the ARCO Tower and worked with Bruce for the first time. She was impressed with his design of an executive desk.

They quickly discovered the half the same environmental approach to design. Two years later,

Susan joined the design firm and the two were married. They have carned a niche for designing func-tional furniture and retail fix-tures, and showcase business in-teriors.

tures, and showcase business interiors.

Bruce, in the mid-1970s, pioneered the use of computers animated films, and video and laser disc programs in exhibitions, such as the AT&T exhibit and the Primate Discovery Conter at the San Francisco Zoo.

The Burdicks' presentation, part of the 20th senson of Archi-LECTURES, is open to the public without charge, it will be held in Lawrence Tech's College of Architecture and Design auditorium.

For more information, call Gary Keeskes, director of continuing education and professional development, at 810-356-0200, ext. 4050.
