

Constipation Cure Free

With the first signs of constipation you resort to the home methods of relief such as hot or cold water, arising fasts of steamed fruit with your breakfast, etc., but what do you do when these fail?

The majority then start on salts and purgative waters, then change to cathartic pills, etc. If you have gone through these various stages you know they were all useless, so far as permanent results go. Now you should try just once again, but try something practical and sensible, a remedy made and intended for the purpose you are trying to accomplish. Such a remedy is the famous "Cathartic" Dr. Caldwell's Syrup Pepsin, which is guaranteed to be permanent in its results. Its ingredients are such that by a brief use if the stomach and bowel muscles are trained to again do their work for you, so that in the end you can do as you will with medicines all kinds. That it will do this Mr. G. Y. Dodson of Northville, Mich., will gladly attest, and so will Mrs. E. A. Hampton of Portage, O.

To those who are still skeptical there is a way to prove these assertions without a penny of expense. Simply send your name and address to Dr. Caldwell and obtain a free sample bottle. After using it, if you are then convinced it is the remedy you need, buy a fifty cent or one dollar bottle of your druggist and continue to use it for a brief time until cured. The directions are simple and the case is small. It is pleasant to the taste, does not grip and is promptly effective. These statements are guaranteed or money will be refunded.

This remedy is over a quarter of a century old and is personally taken by more druggists than any other similar remedy on the American market. Because of its effectiveness, purity and pleasant taste it is the ideal laxative remedy for children, women and old folks generally. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family, please use letter and we will reply to you in detail. For the free sample simply send your name and address on a separate card or otherwise. For other request the doctor's address is Dr. W. B. Caldwell, 2300 Caldwell Building, Monticello, Ill.

WARNING TO ALL PARENTS

The Tendency of Some Mothers and Fathers to "Show Off" Their Children Usually Ruins Them.

When parents are the proud possessors of a very bright and clever child there is always the risk that they may make of their offspring a self-conscious and priggish little person. It is natural enough that Tommy or Katie, as the case may be, should be inclined to "show off" when their attainments are made the subject of conversation. It is extremely bad for children, converting them into self-conscious little men and women instead of just natural "rough and tumble" boys and girls with a healthy liking for marbles or dolls, says Woman's Life. Many a child has been utterly ruined in disposition by parents' openly shown pride, and the tendency to bring children forward unawares, and to make them the center of attraction before visitors is all too sadly on the increase. It is, of course, not hard for the mother and father of a bright child to realize that the quality is bound to be less interesting to other people than to themselves, that friends do not visit them for the sole pleasure of hearing Katie recite or Tommy sing the latest popular song in his shrill treble. It may be amusing for a while, but "show off" children are apt, later on, to show social liking for the more solid attainments, with the result that their slower, duller brothers and sisters leave them behind on the ladder of fame. Cultivate a child's talents by all means, but do not parade them to public behoof, for it may mean the ruin of a possibly big career.

WOULD ABOLISH PUBLIC ZOO

Restlessness or Sulen Melancholy of Wild Animals Caged Has Gloomy Impression.

The chafing restlessness or sulen melancholy of wild animals caged, has a gloomy impressiveness which works powerfully on the sympathy of sensitive persons. A rich New York woman, Mrs. George W. Parkier, wants to abolish all the zoos in the country. The sentiment which prompts her commands admittance without exception. Scolding may be conceded to science, to amusement, to popular curiosity, which are all concerned in exhibitions of the denizens of jungle and forest. Then, is Mrs. Parkier sure she would really benefit the animal creation by her plan? Free wild beasts suffer a worse fate than imprisoned ones. The war of tribe against tribe, furred, feathered or many, is an ancient and frightful conflict, with no quarter given. All hunters can tell shocking stories of animals mutilated by each other, or injured by accident, and condemned to drag out a lingering agony more dreadful than death. We read of skilled medical attendance for elephants, lions and bears in zoos. But the only hope of a wounded or sick animal in the woods is a merciful bullet from some chance sportsman.

To Lengthen Life.

A former United States surgeon says that human life may be lengthened if people are taught more about the subject of ventilation, how to breathe, how to dress. In addition, he would have food supplied by municipal kitchens, where the cooks shall be required to pass an examination and not be engaged unless they possess the proper certificate of qualification. He might have gone further and said that in case we have municipal kitchens there would also have to be a financial kitchen commission instructed to see that the kitchens provide pure food. Perhaps there would have to be a kitchen committee above them to see that the commissars were not influenced by "grat." But many a housekeeper will cling to their kitchen in the last. She may accept ready-to-wear clothing and send her washing to the laundry to be cleaned with the clothes of a hundred other families, but she cannot have their food cooked in some particular way which renders the community kitchen, whether in boarding house or fashionable hotel, unsatisfactory.
