SCREENING FOR COLO-RECTAL CANCER.
FREE CONSULTATION TO DETERMINE YOUR RISK

Colo-rectal cancer is a prevalent disease. It is second only to lung cancer in terms of both incidence and survival. By screening people who are at high risk and have no symptoms it is likely that the diagnosis can be made at earlier stages when there is a potential for cure.

The incidence of the disease begins to increase at age 40 and rises dramatically at age 50. It is in this age group that is targeted for screening. Please call us at Digestive Disease Clinic and schedule an appointment for your initial free consultation to evaluate your risk of developing this preventable disease. Our office hours are between 9 a.m.-4 p.m. Monday thru Friday and remember prevention is the best cure.

brunch in their honor Monday at the Mercy Center.

"The real life, vitality and heart of Oakland County are the volunteers," said Oakland County Commissioner Donn Wolf, Farmington Hills.

And Wolf, who is chairman of the commission's finance committee, wasn't just giving out pots on the back. The volunteers honored accounted for 32,000 work hours that, at even \$5 an hour, has benefited the cities of Farmington and Farmington Hills to the equivalent of more than \$160,000.

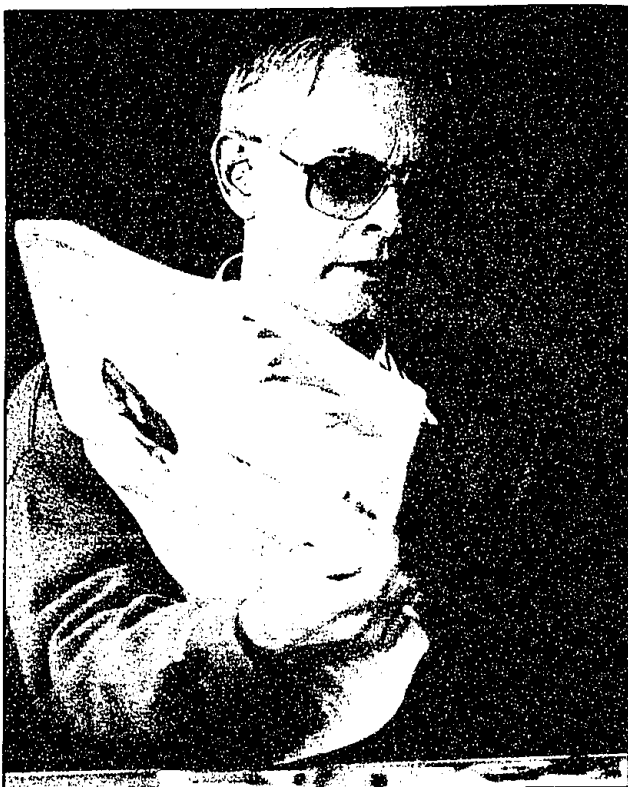

The volunteers and guests dined on a brunch prepared at the center and heard about their good works through speakers and a video organized by John and Lynn Washburn.

The 300 "stars" attending also received recognition and awards during the program.

Kathleen Pohutsky, chairwoman of the Farmington Hills Commission on Aging, presented Pat and Ivar Nylén with the Diamond Award for their service. The award, created last year, honors an individual or couple who are at least 75 and contribute to the community with their volunteer efforts.

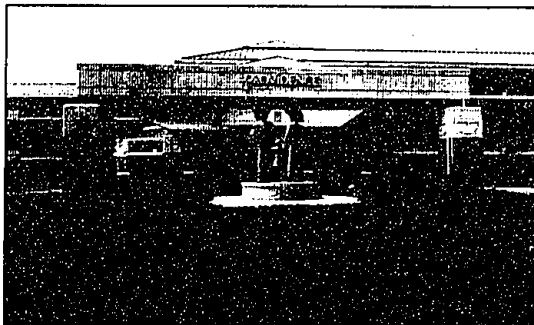

The Nyléns were recognized for their efforts in founding the local chapter of the American Association of Retired Persons, where they have helped other seniors with their taxes, helped seniors submitting Medicare claims and were active in many other volunteer efforts.

Volunteers were recognized for their efforts on social programs, such as bingo, bridge and entertainment; service programs such as computer class, legal services and transportation; health-related programs such as exercise class, Medicare assistance and Kan-doo stroke club; and charitable work such as World Medical Relief and food co-op.
