Remember when the family doctor was like part of the family?

Going to the doctor was a warm, friendly experience. The doctor greeted you by name and knew your whole family.

You were surrounded by a feeling of caring concern. Your doctor took the time to listen to your thoughts, feelings and questions before discussing treatment options with you.

But medicine has changed with improvements in science and technology, sometimes resulting in more streamlined, less personal care. At a medical clinic, you may not see the same doctor every time. And you'll probably be shuffled from one end of the building to the other for tests.

At Country Ridge Family Practice, Dr. T. Reid Kavieff combines the best of both worlds — offering warm, compassionate care with the latest in laboratory and diagnostic equipment conveniently available right in the office. He will give careful consideration to your needs and desires while doing everything possible to ensure your good health.

When you choose your medical care, come where we care about you as well as care for you.

For a \$15 camp, school or sports physical, please call:

He received his D.O. degree from the Michigan State University College of Osteopathic Medicine in 1981, and completed his internship at Riverside Outpatient Hospital, Tucson, in 1985 and his family practice residency in MSU in 1988.
