

Nurse Practitioner

A major automotive manufacturer is seeking a Nurse Practitioner for a permanent afternoon shift assignment. Responsibilities will include management of occupational injuries and illnesses for a large manufacturing plant with approximately 1,000 employees. Other responsibilities include:

- Participating in the formulation of plans/programs for the management of particular health problems (including ergonomic concerns)
- Monitoring the medical leave of absence program
- Evaluating employees' ability to return to work including placement
- Monitoring and managing the medical surveillance program
- Maintaining accurate computer programs/files

A BS in Nursing is required (MS in Nursing preferred). Occupational health nursing and emergency room experience highly desirable. Must be currently licensed in the state of Michigan as a CERTIFIED NURSE-PRACTITIONER in family, adult or occupational health.

Qualified candidates should send resumes to:

Box 160
Ossener & Eccanite
36281 Schoolcraft Rd.
Livonia, MI 48150
